PROPORTIONALITY AND THE ALLOCATION OF SEATS TO POLITICAL GROUPS

The Director of Legal and Governance Services submitted a report that aimed to guide the Committee through the legal requirements in relation to proportionality and allocation of seats on Committees to Political Groups.

It was highlighted that following local elections in May 2019 the Council's political make-up had changed significantly. The Constitution and Members Development Committee had requested that the Monitoring Officer provide a report in respect of the legal framework / requirements for committee appointments and the allocation of places and the Political Balance legislation.

The Head of Democratic Services presented the report and during discussion the following points were raised:-

- Although the Council can choose to move away from proportionality, the Council has followed the principles of proportionality for appointments to the majority of Committees.
- Legislation did allow for the political balance to be reviewed upon written request, as long 28 days had past since a request was last submitted.
- The Mayor was not considered as a Councillor under the Local Government and Housing Act 1989 and was not included in the political balance allocation.
- The Authority was under a duty to review the political allocation on an annual basis.

AREED that the information in the report be noted.

REVIEW OF COMMITTEES

The Head of Democratic Services submitted a report to the Committee to consider detailing a number of proposed options for streamlining Committee structures. The Council's political make-up had changed significantly since the May local elections and it had been agreed by full Council that the Constitution and Members' Development Committee should consider a full review of the Committee structures and political balance allocation.

To assist the Committee in its review Members had requested the following information at its previous meeting on 15 July 2020:-

- The number of Committees, the allocation of seats and whether there was a

- requirement to have as many Members as currently is on each Committee.
- Options regarding streamlining Committee structures, including any proposals to reduce the number of Committees and the number of Members appointed to Committees.
- The Terms of Reference of the various Committees should be examined, as well as legal clarity provided on the statutory / non-statutory / regulatory nature of each Committee.
- The current structure of the Overview and Scrutiny Panels and whether it would be feasible or beneficial to merge Panels.

It was highlighted that in accordance with the requirements of the Local Government and Housing Act 1989 the Council was required to periodically review the political composition of the Council and its application and appointments to committees of the Council. The Committee was informed that whilst the full Council considered allocations to existing Committees on an annual basis the last major review of committee structures, and their terms of reference, had taken place in 2005.

It was therefore proposed that this review would focus on those Committees that were covered by political balance. It was recommended that a further review of other committees, such as the Executive and Joint Committees, be undertaken at future date.

The Head of Democratic Services advised that once the Constitution and Members' Development Committee had considered the proposals detailed in the report, further work would be undertaken to review the full Terms of Reference of any new/ merged Committees which would again be submitted to Constitution and Members' Development Committee for consideration before approval was sought from full Council.

It was proposed that any changes/recommendations accepted by the Committee and agreed by Council should be implemented for the new municipal year in May 2021 following the completion of the Democratic Support Review that would take place from September 2020. This would ensure that any agreed changes could still be supported along with a better understanding of any implications they may bring.

The Head of Democratic Services presented the proposals, as contained in Appendix 1 of the report, and during discussion the following points were raised:-

- There was no objection to merging Constitution / Members Development and Standards Committee
- Chief Officer / Staff Appeals could be undertaken on a rotational basis and renamed the Appointments and Dispute Resolution Committee, reference was made to potential conflicts of interest and the need for these to be clarified / included in any terms of reference.
- Licensing Committee could consist of two subcommittees, with a broad enough membership (7).
- Members were of the view that the Ad-Hoc Scrutiny Committee should not be merged with the Overview and Scrutiny Board.
- The Health Scrutiny Panel should remain remain as a separate function and not be merged with the Adult Social Care and Services Scrutiny Panel.
- The views of the Chairs of the Children and Young People's Learning Scrutiny Panel and Children and Young People's Social Care Services Panel would need to be sought in advance of any changes and the preference was for these to remain separate.
- The view of the Chair of the Economic Development , Environment and Infrastructure Committee would need to be sought in respect of any proposed changes.
- Consultation would need to take place with the unions in respect of the proposals regarding Works Council and the Corporate Health and Safety Committee.

AGREED that a revised Petitions Scheme be considered at the next meeting of the Committee following the repeal of legislation relating to the requirement for local authorities to have a statutory scheme.
