SUSPENSION OF COUNCIL PROCEDURE RULE NO 61 - URGENT MOTIONS

ORDERED that, Council agreed to suspend Procedure Rule No 61 for the remainder of this meeting and the requirement for 3 clear working days' notice in writing to the Monitoring Officer and the Chair of the Council of the Urgent Motion.

Consideration was given to the following Urgent Motion, moved by Councillor Rooney and seconded by Councillor Brunton:

"In light of the devastating and avoidable closure of the steelworks at Redcar, this Council gives its unconditional support to the Redcar steelworkers and their families. As a Council, we will do all we can to support the workers back into employment, and urge the Government to do take their responsibilities to Teesside seriously, providing the proper resources to the Taskforce and directing more employment opportunities to the region.

The Council also has a duty to scrutinise the events which have led to the avoidable and

tragic demise of steel-manufacturing on the banks of the Tees. The closure of one of Europe's largest and most modern steel plants will have a devastating impact on our wider industrial base, the supply chain, on our communities and to our industrial heritage.

Therefore, we resolve to write to the Prime Minister, the Chancellor of the Exchequer, the Minister for Local Growth and the Northern Powerhouse and Minister for Small Business, Industry and Enterprise, calling for a full enquiry into the handling of the matter, and demanding answers to the following questions:

1. Was there an offer from a local company to run the coke ovens?
2. How much would mothballing cost vs massive loss of assets to sell?
3. When did the Government know of looming disaster?
4. What is the justification for the receiver only taking ten days to decide the future of the plant?
5. Did the Government instruct the receiver during the process?
6. Did the receiver have any dialogue with local suppliers, unions, industry and the task force?
7. Did the receiver have any dialogue with international industry?
8. Are any plans in place to pursue SSI or inheritor companies for debts knowingly incurred and assets deliberately stripped?
9. Are there, or have there been, any attempts at due diligence of companies running vital industries and their willingness or capability to ensure proper treatment of workers and investments?
10. Is any form of state intervention under any circumstances really against EU rules as repeatedly stated?
11. Would any EU funds be available if asked for?
12. Why close now when national steel summit is on Friday 16th?
13. Will the Government be pushing for SSI to be investigated over its handling of its pension contributions?

A briefing note prepared by the Executive Director for Economic Development and Communities is attached to this motion which provides an update on the current situation at SSI."

An amendment was moved by Councillor Hubbard and seconded by Councillor Saunders for the first sentence of the motion to be amended as follows:

"In light of the devastating and avoidable closure of the steelworks at Redcar, this Council gives its unconditional support to all steelworkers, contractors, suppliers and their families affected by this closure. "

The above became the substantive motion and the motion was put to the vote.

On a vote being taken the substantive motion was **APPROVED UNANIMOUSLY**.
