

PTS – Health Security Panel

Introduction

The purpose of this paper is to advise the Health Security Panel of the Patient Transport Service (PTS) that is currently provided by the Transport Information Service (TIS) on behalf of the four Primary Care Trust's (PCT's) on Teesside.

Purpose of Service

The purpose of the Transport Information Service (TIS) is to ensure patients who are unable to attend their hospital/clinic appointment by public or other means of transport, have a central contact number to obtain and if eligible Non emergency NHS Transport service to ensure attendance at their hospital/clinic appointment. The Transport Information does this by

Assessing all patients contacting the service to ensure eligibility for NHS Transport

Assessing patients mobility requirements to ensure relevant transport is provided
Booking eligible patients transport

Providing patients who are not eligible for transport, information on how to get to their hospital appointment.

Implementation of Service

This pilot service commenced on 1st April 2007.

Changes to Service & Eligibility

The Transport Information Service is currently on the third draft of Eligibility Criteria. Please see appendix 1 of this evaluation.

Outcomes (Performance)

In the current Service Level Agreement a call standard response was included to read that a minimum of 85% of calls will be answered within 30 seconds, this standard is achieved with the Transport Information Service constantly achieving over 90% each month.

The Transport Information Service has undertaken a service evaluation to ascertain how the service they provided was perceived. A total of 120 patients were contacted and below is a summary of the responses received.

Question – Was your call answered quickly? Answer 96% Yes

Question – Was the operator friendly/helpful? Answer 92% Yes

Question – Did you understand the process you were taken through? Answer 93% Yes

Question – Overall were you happy with the way your call was handled? Answer 96%

As at October 2007 a total of 27507 calls were handled and of those 9855 became NEAS bookings and 679 were ECR bookings.

Patient Transport Questions – Health Scrutiny Panel

How does the PCT fund Patient Transport Services? Through a large block of money or does the money follow the patient? – Through a block contract

Who does the PCT commission Patient Transport Services from? – North East Ambulance Services.

How are Patient Transport Services Performance Managed? – Centrally by Middlesbrough Primary Care Trust

How are they performing? – Performance is very good with the Transport Information Service taking over 2000 calls per month.

Does the PCT have a role in ensuring the appropriateness of Patient Transport Services for the needs of the patient?

In relation to the attendance at out patient appointments: - Yes, all calls that are received in to the team are checked for eligibility. If patients are eligible then the patients mobility is ascertained and the appropriate vehicle is dispatched.

Who decides over a patient's eligibility (or not) for Patient Transport Services to attend an outpatients appointment? – The PCT's Transport Information Service, takes all calls into the Service and then goes through with patients, the eligibility criteria and advise the patient accordingly, if the patient is eligible for Transport then the Transport Information Service book the journey on behalf of the patient.

Does the PCT pay for this? – The four PCT's on Teesside contribute to this service.

How is it arranged by/for patients? – The Transport Information Service arrange the journey on behalf of the patient.

Appendix 1

Transport Information Service
