

SCRUTINY PANEL – INVESTIGATION OUTLINE

Review Topic: The Sustainable Transformation Partnership (STP) and implications for Middlesbrough residents	Investigation By (Scrutiny Panel): Health Scrutiny Panel
	Type e.g. Full/Task & Finish: Full

Which of the Mayor’s Vision Middlesbrough 2025 priorities does the topic meet?

A Fairer Middlesbrough

A Safer Middlesbrough

A Stronger Middlesbrough

Purpose of Investigation: To investigate the implications of the STP for Middlesbrough residents	Desired Outcomes: To influence the direction of the STP and assess whether the major reconfiguration of services is in the best interests of Middlesbrough residents
--	--

Terms of Reference:

- a) To examine the STP’s joint vision and how it will translate into less health inequalities locally.
- b) To consider the integration work currently taking place across South Tees.
- c) To assess capacity in the independent nursing care market.
- d) To consider the pros and cons of moving to a capitation based funding approach.
- e) To examine the town wide focus on prevention.

Key Issues/Lines of Enquiry: To be completed after ‘Setting the Scene’ presentation.	Risks (if review was not undertaken): Community is not fully engaged in the STP process or aware of what it may mean for them.
--	--

	<p>Residents may have to travel further for routine operations / services they previously accessed at JCUH.</p> <p>Residents are not fully engaged in the Prevention Agenda – no behavioural change takes place resulting in no reduction in illness and no reduction in demand for acute service provision.</p> <p>Acute reconfiguration in the NHS impacts on service provision by the LA but the LA is not actively involved in the planning / modelling of those changes and cannot meet the demand.</p> <p>There is a greater reliance on the independent social care / independent nursing care provider market and the local market is unable to meet that increased / specialised demand.</p> <p>System wide changes in the funding approach may result in Middlesbrough’s population being adversely affected.</p> <p>Transformational change takes place but reduced health inequalities / improved health outcomes for Middlesbrough residents are not achieved.</p>
--	---

Venue:	Timescale:
Mandela Committee Room	2017/18
