licence as requested. However I would like to bring to your attention that Immigration during their visit to Kili mandjaro HATLEPOOL were clearly informed that myself is not the owner of that restaurant. Although Immigration was informed that the HATLEPOOL Brand is operating as a franchise, so although I am the franchisor Immigration should know that no "franchisor" is responsible for any "franchisee" employment, nevertheless ~~we~~ as far as we are aware the franchisee was not found guilty of employing any illegal worker and even the worst case scenario, why should I be responsible? DS Restaurant limited with Kili mandjaro HATLEPOOL belong to JAVON SM. AS sole director. I believe that Immigration object to my application in Middlesbrough is unfair for the reason given.
