Resources (including SCPU) (Cor-RE, Cor-SCP)							
BV 008 CPA (HR)	Percentage of undisputed invoices paid in 30 days	Lower median	95.90%	83.2%	88%	89%	
BV 076a	Number of housing benefit claimants visited, per 1,000 caseload	Bottom	310.45	41.97	90	154.04	The target was raised for 2004-05 to take account of the introduction of a new verification framework visiting section. However, at the time of setting this target it was not known how many visits they would be required to carry out and as a consequence, although the target doubled year on year, this still transpired to be an under estimate.
BV 076b	Number of fraud investigators employed, per 1,000 caseload	Upper median	0.44	0.27	0.32	0.32	
BV 076c	Number of fraud investigations, per 1,000 caseload	Top	52.61	43.56	48	60.47	The number of HBMS data matches received has greatly increased which could not be anticipated when the target was originally set.
BV 076d	Number of prosecutions and sanctions, per 1,000 caseload	Upper median	4.84	2.45	2.45	4.01	The increase in the number of data matches increased the number of investigations resulting in a sanction/prosecution. This change could not have been anticipated when the target was set.
BV 078b	Number of days for processing notification of changes of circumstances	Upper median	7.7	6	25	8	The rules for this indicator have recently changed causing confusion over the expected outturn. Recent guidance has added to the confusion and an update to the software installed. It is still uncertain (for the long term) at what level this indicator will settle at.
Performance Management & Diversity (Cor-PMD)							
BV 002b	Percentage score in relation to the Council's Race Equality Scheme (RES)	Top	63%	58%	83%	95%	The new RES has made considerable improvements and there are measurable developments.

BV 079b	Percentage of recoverable overpayments (excluding council tax) recovered in the year	Bottom	55.10	51.3%	60%	34.9%	The formula for calculating this BVPI includes all overpayments still outstanding from April 2000. These overpayments are generally where the debtor cannot be traced, or is on a low income. If the customer still receives housing benefit, or chooses to repay by weekly instalments, the overpayment is normally recovered at a reduced recovery rate due to their level of income. The numbers of customers who are able to repay outstanding debts in full are fairly low. This therefore means that although the debt will eventually be repaid, it will take some time to recover, which has a direct impact on the percentage of overpaid benefit recovered in a financial year In addition, as Middlesbrough has an effective Benefit Enquiry Team, the level of Fraud detected is relatively high in relation to the benefit paid out. This also has a knock on effect when looking at the percentage of overpayments recovered as the overpayments identified by the Benefit Enquiry Team will also take a number of years to recover
BV 156 CPA	Percentage of council buildings accessible and suitable for disabled people	Bottom	64.83%	13.45%	23.5%	20.99%	Refurbishment and modifications to property have slipped due to design /construction lead times.
Performance Management & Diversity (Cor-PMD)							
BV 002a	The Council will conform to level 1 of the Equality Standard for local government	NA	1	1	2	1	Mainstreaming of Diversity issues still continuing although evidence across the organisation is currently lacking. Concerted efforts are now being made by all service areas to adequately record all actions taken in relation to diversity issues. It is now envisaged that Level 2 will be achieved in 2005 / 06.

BV 011b CPA	Percentage of the top 5% of earners from black and minority ethnic communities	Upper median	3.70%	0%	1.0%	0.78%	Progress has been made since 2003/04 but not as much as we had expected to, further measures are being considered.
BV 014 CPA	Percentage of employees retiring early (excluding ill-health)	Lower median	0.17%	0.22%	0.15%	0.54%	Early retirements are approved only if cost effective and funded.
BV 015 CPA	Percentage of employees retiring with ill-health	Bottom	0.17%	0.22%	0.30%	0.58%	An occupational health doctor approves ill health retirements. The council is improving its health promotion activities but these take time to bear fruit
Partnership Information & Strategy (Cor-PIS)							
BV 157	Percentage of interactions with the public which are capable of electronic service delivery	Lower median	74%	66%	79%	55.5%	The reduction in the percentage rate is due to a change in the method of collection and calculation, (ESD toolkit). This has been recognised by the ODPM as a national trend – all local authorities have experienced an initial drop in rates when using the toolkit for the first time

BV 197	Percentage reduction in the number of under 18 conceptions, per thousand female residents aged 15-17, compared with the baseline year of 1998	Lower Median	-14.9%	5%	-15%	3.6%	Outturn relates to figures for the 2003 calendar year. Figures for 2004 indicate a 13% reduction on the 1998/99 baseline.
PAF B7	Percentage of children looked after in family placements, as a proportion of all children looked after	N/A	N/A	88%	90%	86.7%	Small reduction in % terms year on year; 2003/04 – 187 placements amongst 215 cases. 2004/05 – 189 placements amongst 218 cases.
PAF E44	Percentage of gross expenditure on all children's services spent on children in need, but not looked after by the authority	N/A	N/A	32% (e)	33%	31.3%	Out turn remains in the "acceptable" range for the Annual Performance Assessment, which informs the children's services block in CPA.
School Improvement Service							
BV 038	Percentage of pupils achieving 5 or more A*-C GCSEs or equivalent	Bottom	55%	38.8%	45%	40.8%	Improvement year on year at 2% compared with 0.9% for all maintained schools nationally.
BV 039	Percentage of 15 year old pupils achieving 5 or more A*-G at GCSE or equivalent, including Maths and English	Bottom	90.1%	81%	88%	80.3%	Trend year on year shows a 0.7% reduction compared with 0.5% improvement for all maintained schools nationally.
BV 040	Percentage of pupils achieving Level 4 or better at Key Stage 2 in Maths	Lower Median	75%	71.1%	83%	72%	Performance improved by approximately 1%, broadly in line with National improvement rate. A number of schools that have performed well over the last few years dropped around 10%, which whilst representing a good level of performance, restricted the overall improvement rate.

BV 041	Percentage of pupils achieving Level 4 or better at Key Stage 2 in English	Lower Median	77.6%	71.6%	83%	73%	Performance improved by approximately 1.5%. A group of 12 schools continue to achieve below 65%, which restricted the overall improvement trend. A targeted intensive support programme is planned to help these schools secure improvements in this result set.
BV 181a	Percentage of 14 year old pupils achieving Level 5 or above at Key Stage 3 English	Bottom	73%	56%	68%	58%	Performance improved 2%, in line with National improvement. There is a 12% gap between girls' & boys' performance. This key issue is targeted in the LEA's plans, which include funding for an additional English consultant and a focus on boys' performance for the Behaviour & attendance consultant.
BV 181b	Percentage of 14 year old pupils achieving Level 5 or better at Key Stage 3 in Maths	Bottom	74%	60%	67%	63%	Boys' performance in maths was 2% above that of girls and 12% above boys' performance in English, which is reflected in the overall performance against target r and illustrates the problems encountered in English.
BV 181c	Percentage of 14 year old pupils achieving Level 5 or above at Key Stage 3 in Science	Bottom	73%	55%	67%	54%	Performance in science falls well below that in English & maths. The LEA's plans include funding for an additional science consultant to support the teaching of science with an emphasis on supporting girls' performance.
BV 181d	Percentage of 14 year old pupils achieving Level 5 or above at Key Stage 3 in ICT	Bottom	72.13%	55%	70%	62% (e)	Results for one city academy represented a significant underperformance based on the prior attainment projections for the predecessor schools. Gap reflects over ambitious stretch expectation built into the DfES target setting process.
BV 194a	Percentage of pupils achieving Level 5 or above in Key Stage 2 in English	Bottom	29%	24%	31%	21.9%	Results indicate that more able pupils have not been stretched sufficiently. The LEA'S strategic plan for 2005/2006 includes a specific priority aimed at raising the performance of higher attaining pupils.

BV 194b	Percentage of pupils achieving Level 5 or above in Key Stage 2 in Maths	Bottom	31.0	26%	31%	24.6%	Results indicate that more able pupils have not been stretched sufficiently. Boys' achievement level was down overall. The LEA's strategic plan for 2005/2006 includes a specific priority aimed at raising the performance of higher attaining pupils.
Policy & Resources Service							
BV 034b	Percentage of secondary schools with 25% or more of their places unfilled	Bottom	0%	0%	0%	16.67%	This relates to one school only. Pupil numbers at this one school reduced more significantly than anticipated putting into this category for surplus places.
BV 177	Percentage of legal and advice expenditure on quality marked services	Upper Median	95%	78.77%	90%	85.24%	An additional grant was made to an agency without a quality mark (QM) in this category during 2004/05. Work is planned with this recipient during 2005/06 with the aim of securing a QM for their work in this area.
Pupil Support Service							
BV 043b CPA (HR)	Percentage of statements of Special Educational Need issued and prepared within 18 weeks, including those affected by "exceptions to the rule" under the SEN Code of Practice	Top	80%	92.17%	93%	88.12%	Remains in top quartile. Overall number of statements reduced from 115 to 101. 12 cases not completed within 18 weeks. Year on year performance shows a small down turn in performance, which reflects the uncontrollable impact of the "exceptions" outlined in the Code of Practice.
BV 045	Percentage of half days missed due to total absence in secondary schools maintained by the LEA	Bottom	8.00%	10.19%	8.5%	10.28%	Original target trajectory based on an improvement rate aimed at meeting upper quartile nationally, which may have been too stretching. DfES revised targets, taking 2002/03 as the baseline, aim for an 8% improvement by 2007/08 (academic years).
BV 046	Percentage of half days missed due to total absence in primary schools maintained by the LEA	Bottom	5.50%	6.65%	5.5%	6.42%

BV 159a	Percentage of permanently excluded pupils provided with alternative tuition of 5 hours or less	N/A	N/A	22.1%	0%	10.48%	For some pupils excluded by local city academies there is a significant delay between the point of exclusion and the LEA being informed, which makes the task of planning alternative provision and engaging with the young people more difficult.
BV 159b	Percentage of permanently excluded pupils provided with alternative tuition of 6 – 12 hours	N/A	N/A	14.3%	0%	12.38%	Increased number of permanently pupils. Majority of pupils receiving provision in the upper part of this band.
BV 159c	Percentage of permanently excluded pupils provided with alternative tuition of 13 – 19 hours	N/A	N/A	20.8%	0%	19.05%	Increased number of permanently excluded pupils. All pupils receiving more than 16 hours provision with the majority (13/20) receiving more than 19 hours.
BV 159d	Percentage of permanently excluded pupils provided with alternative tuition of 20 hours or more	Bottom	93.2%	43%	100%	58.10%	Increase the number of permanently excluded pupils in this category by 85% (61 compared with 33 in 2003/2004) but the impact has been reduced by the increase in the total number of excluded pupils.
