PURPOSE OF REPORT

1. To inform the Board of the progress achieved with the implementation of agreed Executive actions resulting from the consideration of scrutiny reports.

BACKGROUND INFORMATION

2. The electronic Scrutiny Monitoring Database was introduced in June 2003, to assist Members in tracking the implementation of agreed Executive action plans. The database is accessible through the lotus notes application. As agreed, the Board will receive quarterly updates detailing the progress of implementing scrutiny recommendations and in particular the actions that have not been successfully implemented.
3. Members receive updates to ensure that recommendations have been effectively implemented. It is essential that progress is monitored against any agreed recommendations to ensure that improvements are being achieved.

6. To summarise, of the **546** Executive actions which should have been implemented by June 2009: -
- **523** had been implemented;
 - **14** were partially complete;
 - **9** had not been implemented.
7. All of the agreed Executive actions for **54** reviews have been completed. These reports have now been archived within the database.

RECOMMENDATION

10. That the Board considers the information presented in Appendix A and agrees an appropriate course of action to monitor the recommendations that have not been implemented by the proposed target date.
11. In an attempt to maintain 'continuous feedback' Members may wish to revisit topics to monitor the progress being made. Members may request that evidence of impact and results should be presented to the scrutiny panel responsible for that review.
12. As part of the scrutiny evaluation process, Members may consider inviting back individuals or groups that have previously given evidence to inform a scrutiny review or inquiry to discuss whether there has been any discernible change in the service provided since the recommendations were approved and implemented.
