6 **SCRUTINY PANEL PROGRESS REPORT**

The Chair of the Economic Development, Environment and Infrastructure Scrutiny Panel advised OSB that the recommendations and conclusions of its Clean Air topic would be finalised at the Panel's next meeting, on 6 February 2019. The Chair also advised that an update was to be provided by the Town Centre Manager and Head of Economic Growth regarding the current condition of the retail offer and other challenges and opportunities the Town Centre faced.

The Chair of the Culture and Communities Scrutiny Panel advised OSB that at the Panel's last meeting the Director of Culture and Communities and the Chief Executive of the Middlesbrough Voluntary Development Agency (MVDA) updated the panel on current partnership working between the Council and the MVDA. At the same meeting the Panel also received an update from the Selective Landlord Licensing team regarding the rollout of the scheme in the Newport Area. The Chair also advised that the next scheduled meeting of the Panel would not be held, however work on the current topic would continue.

The Chair of the Children and Young People's Social Care and Services Scrutiny Panel advised that at the Panel's last meeting further information was received on its current topic, early help and prevention services. The Senior Strategic Development Officer for MVDA provided information about how children and families were supported via the voluntary sector. The panel heard MVDA had undertaken a two year study to explore the opportunities for the Voluntary and Community Sector to support the development of Middlesbrough's early help services. At the Panel's next meeting the Director of Children's Care would provide a verbal update regarding Children's Services First Contact team. The Independent Chair of Middlesbrough Safeguarding Children Board would also be in attendance to provide an update on the Board's work.

The Chair of the Children and Young People's Learning Scrutiny Panel advised that at the panel's last meeting the Director of Education provided an overview of mental health in local schools and advised that representatives from local schools would be attending future meetings to provide their input. This would allow the panel to examine areas of good practice and then share those among all schools.

The Chair of the Adult Social Care and Services Scrutiny Panel Advised that the panel was beginning to look at support for older carers with the aim of raising issues around this including financial resources.

The Chair of the Adult Social Care and Services Scrutiny Panel provided an update on the work of the Health Scrutiny Panel. At its last meeting the panel received an update from the Clinical Commissioning Group (CCG) on local services, particularly the impact the closure of the Walk-In centres and extended GP hours was having. There was a positive picture emerging as residents are able to see GPs more readily due to extended hours. An example was the ability for Accident and Emergency patients to be re-directed to out of hours GP surgeries in relevant cases. This, in turn, had the effect of maintaining current levels of demand in A&E as opposed to increasing demand, a trend witnessed in other parts of the country.

The panel also agreed to receive a further update from the CCG regarding mental health provision, and how partnerships with TEWV and commissioned services were operating and how this affected Social Care Services. An update was provided to the panel regarding integrated services and the geographic footprint of care services to cover four CCGs and three hospital trusts. It was also advised that there was a small subgroup examining breast radiology services, specifically residents not attending appointments. This group would be receiving feedback on the results of telephone conversations with residents who failed to attend follow up appointments after their initial screening.

A discussion took place regarding how austerity measures in health and other areas were leading to prevention of progress despite evidence of good work in those areas.
