

# TEESSIDE PENSION FUND

Administered by Middlesbrough Council

AGENDA ITEM 5

## PENSION FUND COMMITTEE REPORT

22 JANUARY 2020

STRATEGIC DIRECTOR: FINANCE, GOVERNANCE AND SUPPORT, JAMES BROMILEY

### EXTERNAL MANAGERS' REPORTS

#### 1. PURPOSE OF THE REPORT

- 1.1 To provide Members with quarterly investment reports in respect of funds invested externally with Border to Coast Pensions Partnership Limited ('Border to Coast') and with State Street Global Advisers ('State Street').

#### 2. RECOMMENDATION

- 2.1 That Members note the report and pass any comments.

#### 3. FINANCIAL IMPLICATIONS

- 3.1 Any decisions taken by Members, in light of information contained within this report, will have an impact on the performance of the Fund.

#### 4. PERFORMANCE

- 4.1 As at 30 September 2019 the Fund had investments in the following two Border to Coast listed equity sub-funds:

- The Border to Coast UK Listed Equity Fund, which has an active UK equity portfolio aiming to produce long term returns of at least 1% above the FTSE All Share index.
- The Border to Coast Overseas Developed Markets Equity Fund, which has an active overseas equity portfolio aiming to produce total returns of at least 1% above the total return of the benchmark (40% S&P 500, 30% FTSE Developed Europe ex UK, 20% FTSE Developed Asia Pacific ex Japan, 10% FTSE Japan).

For both sub-funds the return target is an annual amount, expected to be delivered over rolling 3 year periods, before calculation of the management fee.

The Fund also has investments in the Border to Coast Private Equity sub-fund and the Border to Coast Infrastructure sub-fund. By 30 September 2019 £2.1 million was invested in the Private Equity sub-fund and £1.8 million was invested in the Infrastructure sub-fund out of total commitments for 2019/20 to these sub-funds of £100 million each. However, these investment are not reflected within the Border to Coast report (at Appendix A).

- 4.2 The Border to Coast report (at Appendix A) shows the market value of the portfolio as at 30 September 2019 and the investment performance over the preceding quarter, year and since the Fund's investments began. Border to Coast has also provided additional information within an appendix to that report in relation to the Overseas Developed Markets Equity Fund, giving a breakdown of key drivers of and detractors from performance in relation to each of its four regional elements. Market background information and an update of some news items related to Border to Coast are also included.
- 4.3 State Street has a passive global equity portfolio invested across four different region tracking indices appropriate to each region. The State Street report (at Appendix B) shows the market value of the State Street passive equity portfolio and the proportions invested in each region as at 30 September 2019. Performance figures are also shown in the report: for Japan and Asia Pacific ex Japan these figures date over 10 years, as the Fund has been investing a small proportion of its assets in these regions passively for since 2001; for North America and Europe ex UK the figures only cover just over one year as this represents a comparatively new investment for the Fund. The nature of passive investment – where an index is closely tracked in an automated or semi-automated way – means deviation from the index should always be low.
- 4.3 Members will be aware that the Fund holds equity investments over the long term, and performance can only realistic be judged over a significantly longer time-frame than a single quarter. However, it is important to monitor investment performance regularly and to understand the reasons behind any under of over performance against benchmarks and targets.
