Teesside Pension Fund Breaches Log

| Date | (e.g. administration, contributions, funding, investment, criminal activity) | Description and cause of breach | Possible effect of breach and wider implications | Reaction of relevant parties to breach | Reported / Not reported (with justification if not reported and dates) | Outcome of report and/or investigations | Outstanding actions |
|------------------|------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------|-------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| February 2022 | Administration | Analysis of annual benefit statement production shows no issue with the production of statements for active members. However of 23,170 deferred members, only 20,280 or around 87.5% were sent a statement by 31 August 2022. Most of these had no valid home address on the system. The remainder were over normal pension age. | Those deferred members who have lost contact with the Fund will not get updates on the value of their benefits | N/A | No individuals have lost out financially as a consequence of the breach, there is already a system in place to find beneficiaries as they reach normal pension age and work is ongoing to reduce the number of deferreds who don't receive statements in future. | Systems are in place to trace deferred members as they reach payment age. Options exist for tracing addresses of 'gone-aways'. Whether/how frequently this is done will be subject to further analysis. | Further analysis is underway to determine the most cost-effective way to search for these 'gone-aways', and the intention is to search for correct addresses for them in as cost-effective a way as possible prior to this year's annual benefit statements being sent out (in August 2022) |
