

MIDDLESBROUGH COUNCIL

ADULT SOCIAL CARE AND SERVICES SCRUTINY PANEL

Setting the Scrutiny Panel's Work Programme 2022/2023

22 JUNE 2022

PURPOSE OF THE REPORT

1. To invite the Adult Social Care and Services Scrutiny Panel to consider its work programme for the 2022/2023 Municipal Year.

REVIEW OF 2021/2022

2. The topics considered by the Adult Social Care and Services Scrutiny Panel in 2021/2022 are listed below for Members' information:

Full Reviews:

- The Recruitment and Retention of Staff within Adult Social Care – completion of full review with final report; and
- The Role of the Voluntary and Community Sector (VCS) in Supporting Adult Social Care (with a focus on Covid-19 Recovery) (full review to be continued).

Updates:

- Adult Day Care Services;
- Ageing Better Middlesbrough (ABM) – Update and Future/Legacy Planning;
- Aster Care Home;
- Integration of Health and Social Care;
- Overview and Scrutiny Board (i.e. items that had been considered by the Board);
- Social Housing (discussion); and
- Teesside Safeguarding Adults Board – Annual Report 2020/2021 and Strategic Business Plan 2021/2022.

BACKGROUND

3. At the start of every Municipal Year, scrutiny panels discuss the topics that they would like to review during the coming year.
4. Work programmes are useful as they provide some structure to a scrutiny panel's activity and allow for the effective planning and preparation of work.
5. As part of the process for establishing the work programme, Democratic Services Officers gather information/views from a number of sources. Below is a list of topics

which are anticipated to be of particular interest to the Adult Social Care and Services Scrutiny Panel. Members are advised that the list of possible topics is not exhaustive and that additional topics can be added and considered at the scrutiny panel meeting.

Topical issues / Suggestions

Topic	Details
Dementia: 10-year Plan	<p>NHS England (2022) affirms that dementia is a growing challenge. In England approximately 676,000 people currently have dementia; this figure increases to 850,000 when considering the whole of the UK. It is predicted that one million people will have dementia by 2025 and 1.6 million by 2040 (GOV.UK, 2022a). Dementia predominantly affects older people; the likelihood of developing dementia roughly doubles every five years after the age of 65. There are currently around 540,000 carers of people with dementia in England; it is estimated that one in three people will care for a person with dementia in their lifetime. Economically, the cost associated with dementia is circa. £23 billion per year, which is predicted to triple by 2040. This exceeds the cost of cancer, heart disease and stroke.</p> <p>In May 2022, the Health and Social Care Secretary, Sajid Javid, announced that a new 10-year plan to tackle dementia would be published later this year.</p> <p>The plan will predominantly focus on new medicines and advances in science and technology, and how these can be used to improve outcomes for dementia patients across the country. However, from a social care perspective, the plan will also focus on supporting people with their specific care needs while living with dementia. The plan will focus on preventative measures (it is estimated that up to 40% of dementia is potentially preventable), as well as other measures including: social care charging reforms; the integration of / improved linkage between health and social care systems; the Health and Care Act and placing the individual at the centre of care; and the levelling up agenda.</p>
Hospital Discharge and Rehabilitation (Social Care) Arrangements for Lone Adults	<p>In March 2022, the Department of Health and Social Care published a document entitled 'Hospital Discharge and Community Support Guidance' (GOV.UK, 2022b).</p> <p>The guidance, applicable from 1 April 2022, sets out how NHS bodies and local authorities can plan and deliver hospital discharge and recovery services for adults from acute hospitals and community rehabilitation units in England.</p> <p>Survey findings published by the Association of Directors of Adult Social Services (ADASS) in May 2022 indicated that more than half a million people are now waiting for an adult social care assessment, for care or a direct payment to begin or for a review of their care. The survey indicated that family carers are having to shoulder greater responsibility and are being asked to take paid or unpaid leave from</p>

	<p>work when care and support are not available for their family members.</p> <p>For those lone adults being discharged from hospital without immediate or extended family or friends able to provide support, the panel could explore the support and safeguard arrangements in place to ensure a successful discharge from hospital and continued rehabilitation/care.</p>
Supporting Vulnerable Adults	<p>Middlesbrough Council's Strategic Plan 2021-2024 identifies vulnerability as a key priority for the authority.</p> <p>With regards to vulnerable adults, the panel could examine the predominant causes of vulnerability and inequalities in Middlesbrough, and determine how Adult Social Care teams could support Health services further in safeguarding and assisting those identified as vulnerable.</p>

Suggestions

Continence Services	<p>Submitted by an Officer</p> <p>The panel could examine the local authority's role in assisting health services to provide effective continence services. This could include reviewing such matters as the provision and mapping of toilet facilities, and sign-posting to appropriate partner agencies and services as appropriate.</p>
COVID-19 Recovery and Care Provision (Residential and Day Care)	<p>Submitted by an Officer</p> <p>(N.B. The panel will be continuing with its current investigation regarding 'The Role of the Voluntary and Community Sector (VCS) in Supporting Adult Social Care (with a focus on Covid-19 Recovery)').</p> <p>The panel could examine the impact of COVID-19 on care provision, looking at the short and long-term implications that the pandemic has had and identify practical approaches to building a sustainable future.</p>

6. It should be noted that the suggested topics outlined above are exactly that, suggestions. The content of the scrutiny panel's work programme is entirely a decision for the panel to make. When considering the work programme, the panel is advised to select topics that are of interest to it, as well as topics that the panel feels by considering, it could add value to the Local Authority's work.
7. In addition to undertaking the agreed work programme, scrutiny panels have also previously responded on an ad hoc basis to emerging issues (such as considering relevant new legislation, guidance or Government consultation documents). This approach occasionally results in further topics being identified for investigation or review throughout the year.

8. On occasion, an Ad Hoc Scrutiny Panel may also be established throughout the year to undertake additional investigations, for example: to examine areas of work which overlap more than one scrutiny panel.
9. The scrutiny panel is also advised that, under the terms of the Local Government Act 2000, Local Authorities have a responsibility of community leadership and a power to secure the effective promotion of community wellbeing. Therefore, in addition to the scrutiny panel's generally recognised powers (of holding the Executive to account, reviewing service provision, developing policy, considering budget plans and performance and financial monitoring), panels also have the power to consider any matters which are not the responsibility of the Council, but which affect the Local Authority or the inhabitants of its area. For example: nationally, Local Authorities have undertaken scrutiny work on such issues as:
 - Flood Defence Schemes;
 - Policing Matters;
 - Post Office Closures; and
 - Rural Bus Services.

Scrutiny Work Plan Prioritisation Aid

10. Members may wish to use the aid attached at Appendix 1 to prioritise issues where scrutiny can make an impact, add value or contribute to policy development.

PURPOSE OF THE MEETING

11. The scrutiny panel is asked to consider and agree its work programme for the 2022/2023 Municipal Year. To assist in this task, Erik Scollay, Director of Adult Social Care and Health Integration, will be in attendance at the meeting to provide an overview of the main services within the scrutiny panel's remit, and to outline the priorities, key issues and challenges for the year ahead.
12. When considering its work programme, the scrutiny panel is asked to ensure that topics agreed for inclusion:
 - Affect a group of people living within the Middlesbrough area;
 - Relate to a service, event or issue in which the Council has a significant stake or over which the Council has an influence;
 - Are not issues which the Overview and Scrutiny Board or the scrutiny panels have considered during the last 12 months;
 - Do not relate to an individual service complaint; and
 - Do not relate to matters dealt with by another Council committee, unless the issue deals with procedure.
13. It is suggested that the scrutiny panel has a mixture of working styles in its programme. This can include detailed and in-depth reviews, shorter topics, or one-off investigations.

14. Once the scrutiny panel has identified the areas of priority, the Democratic Services Officer will draw those topics into a programme for approval by the Overview and Scrutiny Board.

RECOMMENDATION

15. That the Adult Social Care and Services Scrutiny Panel identifies topics it would like to include in its work programme for 2022/2023, for consideration/approval by the Overview and Scrutiny Board.

BACKGROUND PAPERS
