

**Additional Evidence presented by Middlesbrough Council, Responsible Authority for health, against the application for a premises licence in respect of premises situated at 85 Borough Road, Middlesbrough the Licensing Act 2003**

Further to the evidence provided and dated 28 June 2022 I wish to add the following:

<i>Total Number of licensed premises</i>	<i>476</i>	<i>138</i>

Central ward has the highest concentration of licensed premises including on/off licences, pubs/clubs, restaurants, hotels and late night refreshment venues. Newport has the 2<sup>nd</sup> highest concentration of licensed premises.

The number of licensed premises in both Central and adjoining Newport ward equates to nearly 50% of all licensed premises in Middlesbrough.

The numbers of off Licensed premises highlighted within Middlesbrough Council's Cumulative Impact policies since 2005 have remained a constant figure. The only exception to this was in 2021 which is when Middlesbrough saw the loss of 6

premises licences that permitted off sales in Middlesbrough Town Centre (Old CIP 1 area).

Premises Type	Cumulative Impact Area 2005	Cumulative Impact Area 2015	Cumulative Impact Area 2021	Total Premises in Middlesbrough (Nov 2021)	% of licensed premises in CIP Area 1
Restaurants	16	20	24	60	40.0%
Late Night Refreshment	24	27	33	97	34.0%
Hotels	2	3	4	10	40.0%
Pubs/Nightclubs	50	33	54	122	44.3%
Off Licences	18	18	12*	138	8.7%

These off sale premises related to retail premises within the Town Centre where the sale of alcohol was very much ancillary to the sale of other products, with low volumes of alcohol being sold. These premises included large town centre retailers such as BHS, Debenhams, Boots and TJ Hughes along with a Florist and a small Newsagent.

Central ward remains one of the most deprived wards in Middlesbrough that has suffered over a number of years and continues to do. The facts are that this area still has a high density of licensed premises, high levels of alcohol related crime and disorder and anti-social behaviour and a high prevalence of alcohol related harm and as a result of this a further Cumulative Impact Policy will be applied for.
