Visiting And precautions

South Tees Hospitals
NHS Foundation Trust

VISITORS WELCOME!

Our hospital wards offer **visiting everyday** from
2pm to 4.30pm
and from
6pm to 8pm

Please remember to:-

Stay safe
Always gel your hands
when entering and
leaving ward areas

Upto 2 visitors
Please ensure **no more than**
2 visitors are at a patient's
bedside at any one time

Face coverings
You may be asked to wear a face
covering **when visiting vulnerable**
patients or high-risk areas

For the latest visiting guidance updates visit
southtees.nhs.uk or scan the QR code

**Do NOT visit if you have symptoms
of, or have tested positive for an
infectious disease.**

Different rules may apply when visiting a child or baby; a patient at the end of their life or critically ill; or if you are supporting someone with dementia, a learning disability or autism. For more information, contact the nurse-in-charge for the relevant ward.

Quality priorities 2022/23

Quality Priorities 2022/23		
Safety	Clinical Effectiveness	Patient Experience
We will ensure there is a positive safety culture within the organisation in which openness, fairness, accountability and learning from high levels of incident reporting is embedded	We will review and revise our processes for Clinical Audit in order to facilitate effective and evidence based clinical care for our patients	We will ensure that patients, their relatives and carers will have the best experience possible in relation to a planned, safe and effective discharge from our hospitals
We will ensure the care that we provide to our patients is safe, and of the highest possible standard by reducing pressure damage	We will review and revise our processes for NICE in order to facilitate effective and evidence based clinical care for our patients	We will ensure all patients have their nutrition and hydration needs met
We will reduce the risk of Clostridium Difficile infection for inpatients		We will ensure that we have effective ways of receiving feedback from our patients, their relatives and carers which will lead to demonstrable improvements in practice

Cancer patient experienter survey 2021

	Case Mix Adjusted Scores			National Score
	2021 Score	Lower Expected Range	Upper Expected Range	
Q3. Referral for diagnosis was explained in a way the patient could completely understand	71%	59%	69%	64%
Q18. Patient found it very or quite easy to contact their main contact person	91%	81%	89%	85%
Q22. Family and/or carers were definitely involved as much as the patient wanted them to be in decisions about treatment options	79%	70%	79%	75%
Q54. The right amount of information and support was offered to the patient between final treatment and the follow up appointment	84%	73%	83%	78%
Q55. Patient was given enough information about the possibility and signs of cancer coming back or spreading	68%	58%	67%	63%

THANK YOU
