(94) Progress: Give a brief account of the life of the church and plans for the future:

This has not been an easy year of work. Devotion work around the church and hall has meant the resettling of families associated with the church elsewhere in the town. The persons we have tried to attract from the outside so readily available despite the upheaval of many families, attendances at worship have been maintained - the morning service growing in popularity to the evening. Discussions on the re-orientation of our hall and possible rebuilding of the church have been held at many levels. Definite decisions, however, still cannot be made until further information is received from the Corporation.

Family church is being discussed and it is hoped that it will be introduced in 1966. Pastoral work on the church has been reviewed - matters such as work with the parishioners discussed at church meeting. We have joined in United services in the town with representatives to a local Council of churches conference and attempted to play a part in the life of the community.

Internal - whether questions have caused anxiety and decided much positive or legal work in the past 12 months. The church has been hard pressed, but is full of hope, faith and confidence for the future.
