### Introduction

- Your Operating Licence is subject to certain conditions and codes of practice (LCCP) that
  must be complied with to protect your licence.
- · Codes of practice are either:
- social responsibility code provisions which must be adhered to by all licence holders
- Therefore, any breach of them by an operator may lead the Commission to review the
  operator's licence with a view to suspension, revocation or the imposition of a financial
  penalty and would also expose the operator to the risk of prosecution.
- **ordinary code** provisions these do not have the status of licence conditions but failure to take account of them can be **used as evidence in criminal or civil proceedings.**
- There are four types of licence condition, and they have different status in law, but you need to comply with them all:
- General licence conditions can be applied by the Gambling Commission to an individual operating licence or a class of operating licence (for example, all AGC operating licences).
- Individual licence conditions can be applied by the Gambling Commission to an individual
  operating licence. They are likely to address matters concerning an individual operator and
  their activities.
- Conditions imposed by the Secretary of State may be applied to a class of operating licence
  using statutory instruments (amendments to the law).
- Statutory conditions imposed by the Gambling Act 2005 may be applied to a class of operating licence.
- This Handbook is designed to incorporate the conditions for licensees to ensure compliance with any relevant social responsibility provision of a code of practice issued by the Gambling Commission and is applicable to:
- · Gaming Machine General: Adult Gaming Centre Licences, and
- Gaming Machine General: Family Entertainment Centre Licences
- All key requirements necessary to ensure compliance are incorporated but it is important that
  you also refer to the most up to date LCCP version published by the Commission, currently:
- LCCP link: Licence Conditions and Codes of Practice Gambling Commission
- It is absolutely right that licensees themselves should determine how to apply LCCP requirements when formulating their company policies and procedures and how to assimilate into operational systems. This Handbook suggests policy and procedure documents that incorporate requirements, together with a series of logs for the necessary recording of incidents. In addition, there are suggested procedures and forms for dealing with and recording complaints and disputes, suspicious monetary transaction, and other relevant matters.
- The Handbook is amended from time to time, reflecting changes made to LCCP by the Commission, therefore it is imperative that operators ensure they have the most up-to-date version, currently:
- Bacta/2021/Jan/01
- The version reference is printed at the bottom left corner of the cover page and repeated on each page of the Handbook. All previous versions are not fit for purpose and should be deleted from files and systems.

 The Handbook is principally intended for licensees and senior management. Staff training, more appropriate for junior members of staff who interface with customers - can be obtained from bacta.

# ACCESS TO GAMBLING BY CHILDREN AND YOUNG PERSONS

- It is illegal for any person who is under 18 years of age to be permitted entry to an Adult
  Gaming Centre or Adult Gaming Area.
- · Policy and Procedures
- Our policies and procedures with regard to age restriction take into account the structure
  and layout of our gambling premises so as to prevent access to gambling by children and
  young persons, and that our facilities do not appeal to children and young persons.
- Clear and prominent signage is placed at the entrance(s) to our Adult Gaming Centre(s) and adult area(s) stating that it is illegal for persons under the age of 18 years to enter and for the Company to permit entry.
- It is a matter of gross misconduct if a member of staff knowingly allows entry by any person who is under the age of 18 years to our Adult Gaming Centre(s) or Adult Gaming Area(s).
- Any person known to be under 18 years of age is refused entry.
- Any person who appears to be under 18 years of age and has not previously provided satisfactory proof to the contrary, is asked to provide appropriate identification when it comes to the attention of staff and before an attempt to gamble. Members of staff are trained to 'think 25' as a minimum.
- If the person admits to being under the age of 18, they are refused entry.
- Should they claim to be 18 or over and there is still doubt, satisfactory proof of age is
  requested and has to be provided before entry is allowed. Incidents involving suspected
  forged documents will be recorded and reported.
- Proof of age documents must contain a photograph from which the individual can be
  identified; state the individual's date of birth; be valid, and legible. It should bear no visible
  signs of tampering or reproduction.
- Acceptable forms of identification include those that carry the PASS logo (e.g., Citizen card);
  a driving licence (including a provisional licence) with photograph; a passport or a military
  identification card. A range of digital proof of age apps are now available (e.g., Yoti) which are
  robust and helpful in providing evidence of age. Any app which is unfamiliar should be
  investigated to satisfy the venue that it is genuine. A note of app should be made in the AV
  log.
- Where there is still doubt and the person cannot produce proof of age, they are advised that they will not be permitted to enter until such time as they provide such proof.
- They will be shown, have explained to them, and be given a 'proof of age card' application form or offered an explanation on how to apply for a card or directed to a digital proof of age
- Should the person then refuse to leave, they are advised that the age restriction is a legal requirement.
- If they still will not leave, the Duty Manager is immediately contacted to take over the situation.
- Any attempts by under-18s to enter the premises or designated adult area(s) and gamble are
  brought to the attention of the Duty Manager immediately and recorded as an entry on a log
  retained on the premises for this purpose.
- Details of the entry in the AV log to include date, time, identity and date of birth of the individual if known - or detailed description if unknown - member of staff dealing, action

- taken, the outcome and measures put in place to prevent a re-occurrence. Log to be countersigned by the Duty Manager.
- Service is refused in all circumstances where any adult is accompanied by a child or young person.
- All gaming machines, other than category 'D' machines, are inscribed with a notice
  prohibiting play by persons under the age of 18 years, although it should be noted that bacta
  members have voluntarily introduced a Code of Conduct provision which prohibits those
  under 18 years of age playing on cash pay-out reel-based Category D machines.
- Stakes are returned to under-18s where they have been identified as gambling in AGCs or adult-only areas and are not permitted to retain any monetary prize.

### AGE VERIFICATION TESTING

- Companies in Operating Licence fee category C or higher, whereby they are permitted to operate AGCs, or more licenced FEC premises.
- It is a requirement to conduct ongoing age verification testing or take part in collective age
  verification testing programs so as to provide reasonable assurance that policies and
  procedures to prevent underage gambling are effective.
- It is a further requirement that the results of age verification tests carried out by the Company are provided to the Gambling Commission. You must send the results within 42 days of the end of the financial quarter when the test purchasing activity was conducted.
- Test results must be submitted using the Excel spreadsheet as detailed in the below link. The link provides detailed guidance to operators regarding age verification testing:
- https://www.gamblingcommission.gov.uk/guidance/guidance-to-operators-for-ageverification-test-purchasing-non-remote
- Note: It is a condition of bacta membership that age verification tests are carried out by all AGC licensees, and that the results of testing are shared with the Commission.
- Bacta's protocol for age verification testing is accredited by a Unitary Authority (Reading Borough Council); the protocol is appended to this Handbook.
- Operators also need to satisfy the below Ordinary Code provisions depending on the type of venue:

AGC - Ordinary Code 3.2.4

- Companies in Operating Licence fee category A & B, whereby they are only permitted to operate AGCs, or licenced FECs.
- It is a requirement that Licensees should consider how they monitor the effectiveness of their policies and procedures for preventing underage gambling, for example through collective test purchasing programs, and be able to explain their approach.
- The Commission considers acceptable forms of identification to include any identification carrying the PASS logo (for example Citizencard or Validate); a military identification card; a driving licence (including a provisional licence) with photocard; or a passport.

- Licensees should put into effect procedures that require their staff to check the age of any customer who appears to them to be under 21.
- Licensees should consider permanent exclusion from premises for any adult accompanied by a child or young person on more than one occasion to premises restricted to adults, or if there is reason to believe the offence was committed knowingly or recklessly.
- Procedures should be put into effect for dealing with cases where a child or young person repeatedly attempts to gamble on premises restricted to adults, including oral warnings, reporting the offence to the Gambling Commission<sup>1</sup> and the police, and making available information on problem gambling.
- Licensees in fee categories A or B should consider how they monitor the effectiveness of their
  policies and procedures for preventing underage gambling (for example by taking part in a
  collective test purchasing programme) and should be able to explain to the Commission or
  licensing authority what approach they have adopted.
- In providing training to staff on their responsibilities for preventing underage gambling,
   licensees should have, as a minimum, policies for induction training and refresher training.

FEC - Ordinary Code 3.2.5

- 2. Licensees should require a person who appears to relevant staff to be under the age of 21 to be asked to produce proof of age, either at the point of entry to the gambling area or as soon as it comes to the attention of staff that they wish to access gambling facilities.
- 3. Licensees should have procedures for dealing with cases where an adult knowingly or recklessly allows a child or young person to gamble. These procedures might include refusing to allow the adult to continue to gamble, removing them from the premises, and reporting the incident to the police or local authorities, or taking action where forged identification is produced.
- 4. Procedures should be put into effect for dealing with cases where a child or young person repeatedly attempts to gamble on their premises, including oral warnings, reporting the offence to the Gambling Commission<sup>1</sup> and the police, and making available information on problem gambling to the child or young person concerned.
- 5. Where it is likely that customers' young or otherwise vulnerable children will be left unattended on or adjacent to their premises, licensees should consider reminding customers of their parental responsibilities and assess whether there is a need to develop procedures for minimising the risk to such children.
- 6. Licensees in fee categories A or B should consider how they monitor the effectiveness of their policies and procedures for preventing underage gambling (for example by taking part in a collective test purchasing programme) and should be able to explain to the Commission or licensing authority what approach they have adopted.
- 7. In providing training to staff on their responsibilities for preventing underage gambling, licensees should have, as a minimum, policies for induction training and refresher training.

# FAIR AND OPEN PRACTICE COMPLAINT AND DISPUTE RESOLUTION

- Complaints Procedure
- The Company is committed to providing a high quality, accessible and responsive service to customers and the local community. However, dissatisfied customers may communicate a complaint to us either verbally or in writing. All complaints are taken seriously, investigated thoroughly, and handled in a confidential manner. If the complaint cannot be resolved to the satisfaction of both parties on site, a copy of our written procedure for dealing with complaints, together with a complaint form, is supplied to the complainant at the earliest opportunity together with the name and status of the Company representative delegated to deal with the complaint.
- Licence holders should allow customers to raise complaints for at least 6 months from the
  date of the incident and provide customers with an acknowledgement of the complaint as
  soon as reasonably possible, but in any case, within three working days of receiving it or if
  they offer 24hr gambling facilities within 24hours of receiving it.
- Complainants should provide us with a comprehensive description and nature of the
  complaint; whether it is an original complaint, or where the outcome of a previous complaint
  was found unacceptable, and their name and postal address including a contact telephone
  number. We deal with complaints in a timely, fair, open, and transparent way.
- A 'complaint' means an expression of dissatisfaction, whether spoken or written, about any aspect of the way the licensee conducts their licensed activities. For example, a complaint:
- a) about the outcome of a gambling transaction
- b) about the way a gambling transaction has been managed
- that concerns the way the licence holder carries out its business in relation to the three licensing objectives.
- A 'dispute' is any complaint which:
- a) is not resolved under the Company's complaints procedure; and
- b) relates to the outcome of the complainant's gambling transaction.
- In the first instance, the Company will endeavour to resolve the complaint to the satisfaction
  of both parties within eight weeks.
- In the event that a complaint relating to the outcome of a customer's gambling is unable to
  be satisfactorily resolved between the Company and the complainant, the complainant will
  be given contact details of an Alternative Dispute Resolution (ADR) entity within the eightweek period mentioned above.
- Bacta members can use, free of charge, the bacta ADR Service.
- Link: <a href="http://pegasusadrservice.org.uk">http://pegasusadrservice.org.uk</a>
- Complainants also have the means and opportunity of submitting their own version of events
- The dispute is investigated in full by the ADR entity.
- The services of any such ADR entity must be free of charge to the customer.
- Both parties are notified in writing of the review outcome with suggestions of a resolution if appropriate.

- This procedure may, but need not, provide for the ADR entity's resolution of the dispute to be binding on both parties.
- In addition to referring complainants to ADR process, we do not introduce terms which
  restrict or purport to restrict the customers' right to bring proceedings against the Company
  in any court of competent jurisdiction.
- The Company is obliged to keep a record of all complaints and disputes, other than those considered to be trivial, including all disputes referred to the ADR entity that are not resolved at the initial stages of the complaints procedure. There is a requirement to submit reports of the outcome of disputes referred to the ADR entity to the Gambling Commission at intervals determined by the Commission either by the ADR entity or by the Company.
- The Company is satisfied that the terms on which gambling is offered are not unfair within the meaning of the Consumer Rights Acts 2015 and is compliant with those terms.
- An accurate summary of the contractual terms on which gambling is offered is available to customers who are notified of material changes to terms before they come into effect.

## INFORMATION ON HOW TO GAMBLE RESPONSIBLY AND HELP FOR GAMBLERS WITH PROBLEMS

- Stay in control advice
- Without breaching the principle that customers are responsible for their own gambling, the
  nature of the activity suggests that they should be reminded of the need to exercise caution.
  Accordingly, signage in the form of an appropriate number of posters or other appropriate
  means is displayed on our premises:
- Giving clear guidance that in order to keep gambling a fun social activity the customer needs to 'stay in control'.
- Drawing attention to further information, such as leaflets that are available on the premises.
- Indicating sources of help such as the National Gambling Helpline operated by GamCare.
- Large enough and written in language so as to be easily seen and understood.
- Prominently displayed.
- Maintained in a clean and tidy condition, preferably within a glass fronted frame.
- · Advertising sources of help
- At the core of exercising a duty of care is the principle of assisting customers who may wish
  to express concern about their gambling. This tenet is drawn to the attention of customers
  on our premises in the following ways:
- The prominent display of 'Responsible Gambling' or 'Stay in Control' information.
- There are holders or racks containing leaflets in appropriate places that emphasise the need
  to keep gambling under control and where to seek help should anyone be concerned about
  their own or a family member's gambling. These leaflets are available to be taken away from
  the premises without the necessity of having to ask for them.
- The leaflets are available at all times for customers to take discreetly without having to ask a
  member of staff and are located in the gambling area either near to exit doors, ATMs or
  toilets. We endeavour to maintain an effective stock control system to ensure that such
  leaflets are always available to supply. Signposting Information may also be made available
  through the use of links for online or smart technology.
- Details of GamCare, giving the National Helpline telephone number is inscribed on all appropriate categories of gaming machines.
- Protecting those who seek assistance
- Responding to someone who admits to having a problem with their gambling is a delicate matter that has to be timely and needs to be approached sensitively. It is our policy that:
- rules and procedures relating to a policy of responding to problem gamblers are clearly formulated and incorporated into our day-to-day operation;
- at least one member of staff who has been trained to deal with situations that might require
  a response is on duty at any one time, or available without undue delay;
- Staff will engage with customers as they deem necessary to provide advice and support in their interactions. A number of gambling management options will be considered including self- exclusion for those who have lost control. (Refer to full guidance on customer interaction and self-exclusion).
- we draw to the attention of relatives who express concern about a family member's gambling the options available to that person should they wish to address the extent of their gambling;

## MONEY LAUNDERING, CASH HANDLING AND SUSPICIOUS TRANSACTIONS

- Introduction
- As part of its procedures for compliance with the requirements in respect of the prevention and detection of money laundering in the Proceeds of Crime Act 2002 and the Terrorism Act 2000, the Company takes into account the Commission's advice on the Proceeds of Crime Act 2002, Duties and responsibilities under the proceeds of Crime Act 2002 – Advice for operators (excluding Casino operators).
- Money Laundering Definition
- Money laundering is a process by which the proceeds of crime are converted into a ssets which appear to have a legitimate origin, so that they can be retained permanently or recycled into further criminal enterprises. This definition of money laundering means that potentially any employee could contravene the Regulations if they were to become aware of or suspect the existence of criminal property and continue to be involved in a matter which relates to that property without reporting their concerns.
- Policy
- The Company is committed to ensuring that all necessary safeguards are in place with regard to the receipt of money in order to avoid it being used to launder money that may originate from the proceeds of crime.
- The Company has appointed a Designated Money Laundering Officer (MLO)
- All relevant staff are trained on the requirements of the Regulations and told of the need to report any suspicious cash transactions, including the systematic, organised, or substantial money lending between customers to the MLO for the purpose of informing the relevant authorities.
- Disclosure Procedure
- Where it is suspected by a member of staff that money laundering activity is taking/has
  taken place, a disclosure must be made to the MLO as soon as possible. Because of the
  importance attached to the process, notification should normally take place immediately by
  telephone or, where that is not possible, by any other expedient means.
- No discussion will take place with colleagues as confidentiality is paramount.
- The MLO will determine whether or not to submit online or otherwise a suspicious activity report (SAR) to the National Crime Agency (NCA) and will maintain records of all notifications received detailing the method of verification used to identify the suspected person.
- Cash Handling
- Operating policies and procedures are in place with regard to accounting practices and record keeping in respect of:
  - i. Monetary stakes introduced to machines (gross takings),
  - ii. Money introduced to re-float machines
  - iii. Token transactions
  - iv. Customer refunds due to machine malfunctions.
  - v. Money removed from machines (net takings)
- Anti-Money Laundering

- Prevention of money laundering and terrorist financing
- Licence Condition 12.1.1
- Licensees must conduct an assessment of the risks of their business being used for money laundering and terrorist financing. Such risk assessment must be appropriate and must be reviewed as necessary in the light of any changes of circumstances, including the introduction of new products or technology, new methods of payment by customers, changes in the customer demographic or any other material changes, and in any event reviewed at least annually.
- 2. Following completion of and having regard to the risk assessment, and any review of the assessment, licensees must ensure they have appropriate policies, procedures, and controls to prevent money laundering and terrorist financing.
- 3. Licensees must ensure that such policies, procedures, and controls are implemented effectively, kept under review, revised appropriately to ensure that they remain effective, and take into account any applicable learning or guidelines published by the Gambling Commission from time to time.
- As part of their procedures for compliance with the requirements in respect of the
  prevention and detection of money laundering in the Proceeds of Crime Act 2002 and the
  Terrorism Act 2000, licensees should take into account the Commission's advice on the
  Proceeds of Crime Act 2002, Duties and responsibilities under the Proceeds of Crime Act
  2002 Advice for operators (excluding casino operators).
- HM Treasury has decided to exempt all gambling sectors from the EU 4th Anti-Money Laundering Directive with the exception of non-remote and remote casinos.
- This means that only remote and non-remote casinos will have to comply with the new Money Laundering Regulations introduced in June 2017.

### SELF-EXCLUSION

- Policy and Procedures
- Licensees and operators must have procedures in place for self-exclusion for their customers.
   You must take all reasonable steps to prevent an individual who has been self-excluded from participating in gambling.
- You must be able to offer customers the opportunity to self-exclude not only in your venue but also similar gambling facilities in the locality.
- Systems available for the AGC and other sectors are known as Multi Operator Self-Exclusion Schemes (MOSES).
- This policy document is to be read in conjunction with the additional Customer Interaction
  guide for managers and staff together with the Gambling Commission formal guidance on
  customer interaction for premises- based operators. Operators may have arrangements in
  place for staff to refer any issues to a Duty Manager.
- MOSES system overview
- Bacta operates its own scheme called Bacta Self-Exclusion Services Ltd (BSESL)
- The bacta (MOSES) system is now incorporated within the bactaPortal.
- There is an interactive bactaPortal training manual / user guide available to assist operators, managers, and staff in the use of relevant modules including self-exclusion and customer interaction.
- Other MOSES systems are available for use by AGC operators.
- Historically BSESL has offered the opportunity for customers to exclude in the locality at
  various geographical distances up to 1Km. The present system only allows you and your staff
  to self-exclude in a 1Km radius from your premises. Regardless of which MOSES system you
  use all customers who self-exclude will be shown as excluded from all AGC premises within
  the exclusion area. In practice this means that a customer can exclude from multiple premises
  without visiting those other premises to self-exclude.
- For Motorway Service Areas (MSAs) who operate AGCs the locality for exclusions on the MOSES system is individual or multiple service areas on motorways or relevant A roads. A self-excluder who wishes to exclude from MSAs and High St AGCs will need to do so separately.
- LCCP requirements
- Duty Managers and all staff should be trained in self-exclusion.
- Self-exclusion is a last resort for customers looking to address their needs around problem gambling. Staff will engage in the customer interaction process where it may be deemed necessary to self-exclude. Sufficient information should be provided so that the consequences of the process are fully understood.
- Self-exclusion can be offered for a period between 6 12 months. The period can be extended at the end of that period for one or more periods of 6 months.
- Staff should take into account specific requests from the customer including where they live, work and travel to gamble.
- A customer should be given the opportunity to self-exclude immediately without any form of
  cooling-off period or later return to the premises. However, if the customer wishes to
  consider self-exclusion further, they may return at a later date. It must be stressed that this
  process should entail a meaningful conversation. Operators should ensure that they have
  suitable staffing in place at all times.

- Self-excluders should be removed if found gambling or attempting to gamble at the premises.
   Staff are informed of breach alerts in venue and those within the locality on the MOSES system. Structure and layout of the premises should be taken into account when preventing access by self-excluders.
- Although difficult to identify, staff are also asked to consider instances of self-excluded individuals who get another person to gamble on their behalf.
- At the end of the self-exclusion period the exclusion will remain in place for a further 6
  months unless the customer takes positive action in order to gamble again. This process is
  known as reinstatement. The reinstatement process will normally take place in person. There
  is facility to allow this process to take place by telephone. Records of self-excluders are to be
  retained for this period. Although the GC does not expect any particular assessment or
  judgement to be made on reinstatement it does expect staff to check that the person has
  considered the implication of their return to gambling.
- Where a customer chooses to reinstate and return to gambling, they are subject of a 24hr cooling-off period.
- Self-excluders still have the opportunity to self-exclude from other premises owned by a
  company. This system is administered by individual companies and sits outside of MOSES. If
  companies do decide to use this system, they should consider the use of multiple locality
  self-exclusions on the MOSES system which may be more desirable and appropriate for the
  customer in terms of their problem gambling needs.
- All reasonable steps should be taken to prevent any marketing materials being sent to selfexcluders and to have the individual removed from marketing databases within 2 days.
- OTHER INFORMATION
- Problem Gamblers
- Most customers are able to enjoy and control their gambling. Some customers are at risk of
  problem gambling and others have more complex needs in terms of managing their gambling
  habits. On occasions some customers will express a wish to self-exclude beyond the locality
  of 1Km or across a number of geographical areas. The system to carry out extended selfexclusions is explained in the bactaPortal User Guide.
- · Requirement for MOSES system
- Some licensees operate the only premises within a 1Km locality and have historically carried
  out a self-exclusion system which is not compatible with a MOSES system. As above in
  exceptional circumstances some customers will self-exclude across a large geographical area.
  All AGC operators must therefore be part of a MOSES system, or they will be in breach of
  LCCP requirements. Being part of a MOSES system is likely to be a bacta code of conduct
  provision.
- High St Bingo
- Operators who have a bingo licence are required to use the Bingo Assoc self-exclusion scheme. The scheme does not exclude someone from AGCs. Consideration is being given to integrate High St Bingo into Bacta Self-Exclusion and the Portal.
- Self-exclusion without entering premises
- Arcade staff carry out interactions and conversations about self-exclusion in an empathetic
  manner and as best they can in a confidential manner without interruption from other
  customers. However, some customers express a wish to self-exclude away from gambling
  premises. Operators should have arrangements in place to meet customers off site away
  from their venue. Operators will have necessary risk assessments completed to support staff
  in this process.

- GDPR
- BSES complies with General Data Protection Regulation. As an operator you must have your own systems and processes in place to control personal data. As a member of a MOSES scheme, you will have completed a service agreement including issues around GDPR.
- Business Continuity
- The bactaPortal has a system of safeguards in place including server protection which means the self-exclusion system is always available in an electronic format.
- As an operator you must have your own systems in place to ensure that you can get access
  to the system including suitable Wi Fi coverage in venues. Therefore, paper systems are no
  longer provided to assist with the self-exclusion process.
- A self-exclusion appointment letter is available in some circumstances and with the consent
  of the customer when the self-exclusion cannot be carried out there and then for operational
  reasons.
- Licensed FECs
- All licensed FECs are required to have systems in place for self-exclusion. Although not
  required under LCCP most licensed FEC operators choose to be part of a MOSES scheme
  including the Portal and Bacta Self-Exclusion Services.
- It must be noted that there is the same requirement for licensed FECs to provide data for regulatory returns for number of self-exclusions, breaches and those returning to gambling etc.

  of the licensee as if they were bound by the same licence conditions and subject to the same
  codes of practice as the licensee

- Notes:

- Test Procedure
- The test will be conducted in accordance with the Primary Authority protocol. The test will be conducted realistically and appropriate to behaviour that could be reasonably expected from any member of the public entering and seeking to gamble on licensed premises, but also with a view to simulating the behaviour that could be reasonably expected from a young person (under 18 years of age) attempting to gain access to an age-restricted premises. ### **CUSTOMER INTERACTION**

### **PROCESS**

From 31st October 2019 LCCP requires staff to interact with customers in a way which
minimises the risk of customers experiencing harms associated with gambling. Licensees and
staff must take into account GC guidance in this area. This must include 3 key outcomes:

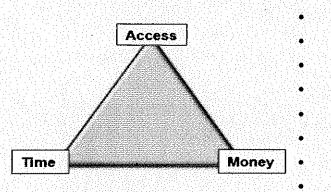

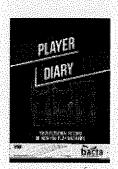

- What is a good customer interaction?
- SEE what is happening
- LISTEN to your customers
- Where appropriate DO something about it
- RECORD what you have done
- · REVIEW what has happened
- Is there a POSITIVE OUTCOME & did it work?
- Who are our problem gamblers?
- Problem gambling can affect anyone.
- Any age, gender, or ethnic background.
- Violence, alcohol and drug abuse, isolation, and mental health.

- How to intervene?
- · Consider your staff training.
- Have a plan in your mind. How would you start? What would you say? How will you end the conversation?
- Customers can make their own decisions. You are able to help.
- Problem gamblers appreciate early interventions.
- Do not miss 'THE INVITATION'. Sometimes problem gamblers just want a little bit of help at the right time. Do not miss the opportunity.
- You will normally do 'THE RIGHT THING'.
- Record Keeping
- Paper or electronic logs can be used to record customer interaction entries.
- Bacta Portal is available to record customer Interaction and self-exclusion records. The Portal
  provides a training manual with further Information.
- Record where an interaction has been considered and ruled out.
- Record an interaction which takes place at a later date.
- Encourage the customer to provide their name and as much information as possible so you
  can give them help and support. Nicknames/ identifiers help to identify repeat entries. Bacta
  Portal also allows you the facility to upload an image of all customers you interact with.
- Check records for previous customer interactions.

- Vulnerability
- Is a customer experiencing any mental health issues or learning difficulties?
- Have they got poor physical health through addiction?
- Does a customer show any signs or indications they may be living with dementia? Consider dementia training for your staff. Persons with some forms of dementia have increased gambling compulsions.
- None of the above is always apparent, it may just be that they enter your arcade with a carer.
   A professional carer will have completed a risk assessment for their client to play and gamble in an arcade.
- Persons who are vulnerable can still enjoy gambling in an arcade.
- Consider if recording the interaction is appropriate with regard to vulnerable persons.
- Limited Exposure
- Gambling management apps such as Gamblewise & Playright can assist customers by providing "time out" options.
- Paper versions are available which assist customers to reduce time and spend in an arcade.
- The issue of a play diary will help a customer to track and control gambling activities.

- Time Out & Barring
- On occasions you will observe customers who are high staking or gamble higher than the
  average amount. These customers do not normally exhibit any obvious indicators of harm
  and are not spending a significant amount of their discretionary income.
- You may wish to complete a customer interaction entry for any of these individuals as an
  assessment of their play without any indication of gambling harms. This will form part of your
  'Know the Customer' process.
- Signposting & support
- Your staff training, leaflets and posters will help you to explain the role of any support service such as a GamCare provider.
- There will be increased empathy if you are able to explain the process of initial contact and support provided by any support agency.
- Providing contact details for your local GamCare provider will help in this process.
- The customer may wish to complete the 'GamCare Self- Assessment Tool' to assist in their decision making during any interaction conversation.

- Self-exclusion
- Self-exclusion is a last resort.
- If a customer wishes to self- exclude a meaningful customer interaction conversation will take place.
- Having considered the options and various gambling management tools self-exclusion may no longer be the right option for the customer.
- If self- exclusion is the right option, then self-exclude.
- Always complete customer interaction entry for a self-exclusion.
- Self-excluders who have returned to gambling should be observed and monitored in the short term for any indicators of risk of harm. It is suggested that all returning self-excluders will be subject of a one- month review.
- What is the role of the Manager?
- Each company will have its own staff training and policy in relation to customer interactions.
- In some cases, staff will observe and note activity and report to a manager who will then
  complete the action and review process.
- Managers should note records, provide guidance, and give some direction particularly around the requirement and completion of any review and evaluation process.
- What is the role of the Company or Licence holder?
- Assess customer interactions to evaluate the effectiveness of your overall approach.
- Understand what works well and is effective for your customers.
- The following indicators may be used:
  - o Customer retention.
  - Reduction in complaints.
  - o Increased staff awareness.
  - Number of interactions recorded & quality of the records.
- LCCP Guidance for Customer Interaction
- 1. Licensees must interact with customers in a way which minimises the risk of customers experiencing harms associated with gambling. This must include:
  - a. identifying customers who may be at risk of or experiencing harms associated with gambling.
  - b. interacting with customers who may be at risk of or experiencing harms associated with gambling.
  - c. understanding the impact of the interaction on the customer, and the effectiveness of the Licensee's actions and approach.
- 2. Licensees must take into account the Commission's guidance on customer interaction.

### GAMBLING ACT 2005: Licence Conditions and Codes of Practice

### **Customer Complaints – terms and conditions**

- Policy & Procedure
- These are the Company's Terms and Conditions by which customer complaints are dealt
  with. Also included is the Company's policy and procedure document and complaint form.
  Copies of the complaint procedure and form are available on site for the benefit of customers
  making a complaint about the outcome of their gambling where the complaint has not been
  resolved on-site in the initial stages.
- A 'complaint' means a grievance about any aspect of the licensee's conduct of the licensed gambling activities, and should be raised with the company as follows:
- The complaint should initially be raised with an available member of staff at the venue at the time of the incident giving cause for complaint. **Stage 1**
- If the member of staff approached is unable to deal with the complaint or the matter is not resolved to the customer's satisfaction, then it should be directed to the duty manager at the venue at the earliest opportunity. Stage 2
- Should the matter still not be resolved, the customer will be provided with a copy of the
  policy & procedure document, together with a complaint form that should be completed by
  the customer and submitted to the Company for consideration by a director or appointed
  senior manager. Stage 3
- If the matter remains unresolved, the customer should be referred to an alternative dispute resolution (ADR) entity with whom the Company has registered. The complaint will not be considered by the ADR entity unless:
  - o the matter relates to the outcome of the complainant's gambling transaction; and
  - o it is not resolved during the three-stage complaint procedure as outlined above.
- It is permissible for an ADR entity to have terms enabling it to reject complaints referred for
  dispute resolution if the complaint is frivolous or vexatious, but the Company will not refuse
  to refer disputes on those grounds.
- The Company will ensure that:
- 1. information about the complaint procedure is set out in these terms and conditions;
- 2. such information is readily accessible on our gambling premises to be taken away;
- 3. information includes details of how to make a complaint to the Company and the identity and contact details of the person deputed to handle the complaint;
- 4. the information names the ADR entity to whom disputes can normally be referred and, where necessary, details of any limitation on the nature and subject matter of disputes with which a particular ADR entity deals.
- 5. customers are given a copy of the complaint policy and procedure document on request or on making a complaint; and
- 6. all complaints are handled in accordance with the procedure.
- Should the Company refer a complaint to ADR entity other than one in respect of which
  contact details were given in accordance with 1 to 6 above it will, at the same time as making
  the reference, inform the Commission of the reference and reason for selection of the ADR
  entity concerned.
- The Company keeps a record of all complaints that are not resolved at the initial three-stage complaint procedure.

- The Company arranges for a copy of the decision on, or a note of the outcome of, each
  dispute referred to an ADR entity to be provided to the Commission, either by the ADR
  entity or by the Company. This information is provided in such format and within such
  timescale as the Commission may from time to time specify.
- The Company also arranges for any outcome adverse to the Company of any proceedings taken against the licensee (in whatever jurisdiction) by a customer in relation to a gambling transaction to be notified to the Commission as a key event; but excluding proceedings allocated to the County Court small claims track or equivalent in jurisdictions outside England and Wales.
- Under no circumstances are members of staff put in physical danger nor will they be subjected to abuse. If a customer is threatening, then that person will be offered the complaint policy & procedure document together with a complaint form and be referred to the Company's strict policy of 'No Abuse'. If the customer continues to be threatening the circumstances will be treated in accordance with a disturbance on the premises, and the person will be asked to leave, and the police contacted to assist if necessary.
- · Which complaints are covered?
- A complaint, in the context of the LCCP, means a complaint solely about the conduct of the Company's activities. A dispute means a complaint which has not been resolved by the operator's complaints procedure to the satisfaction of both parties and relates to the outcome of a gambling transaction.
- Responsibility of the Employer.
- The Company has a written procedure in place to:
- advise employees of the name of the appointed person who is to be contacted about complaints;
- ensure that all complaints are handled in accordance with the procedure throughout the investigative process;
- have arrangements in place for reference by a customer of a dispute to an alternative dispute resolution service for disputes (an 'ADR entity'); and
- maintain a record of all complaints, and those that evolve into disputes. All instances where the complaint is referred to an ADR entity will also be recorded together with the outcome.
- Responsibility of the Employee
- Members of staff not authorised to deal with complaints, or where the customer is not satisfied with the initial outcome, will ensure that:
- the complainant is informed of the name of the appointed Company representative who will
  deal with the complaint, together with the appropriate contact details of that person;
- the complainant is issued with the Company's complaint policy & procedure document and complaint form;
- the circumstances are recorded as contemporaneous notes as soon as possible following the incident and the notes are signed, dated, and timed by the member of staff dealing. The notes are to be comprehensive and a true record of events, and
- members of staff, unless properly authorised by the Company, are not allowed to voice their own opinion as to the merits or otherwise of a complaint. Procedure is strictly adhered to.

### 1. Executive Summary

- 1.1 As of 6 April 2016, all AGC and FEC licenced operators must identify risks to the Licensing Objectives posed by the provision of the gambling facilities they offer in a specific locality and compile a report document outlining any potential risks and the measures put in place to mitigate them.
- 1.2 Thereafter, operators must review their risk assessments if significant changes in local circumstances occur and ensure that members of staff are trained at appropriate intervals of time to reflect such changes.
- 1.3 A separate report will have to be prepared for each and every licensed venue and should reflect classified areas of heightened risk identified by licensing authorities within their Statement of Licensing Principles in addition to those risks that may have been identified by, or brought to the attention of, the licensee.
- 1.4 Licensees are required to share their risk assessments with licensing authorities when applying for a new premises licence, when applying for a variation to an existing licensed premises, or otherwise on request.
- 1.5 Risk assessment reports should identify potential risks associated with company operating systems, the exterior design of the premises, interior layout of the premises and outside influences so as to minimise possible breaches the Licensing Objectives.
  - Preventing gambling from being a source of crime or disorder, being associated with crime or disorder or being used to support crime.
  - · Ensuring that gambling is conducted in a fair and open way, and
  - Protecting children and other vulnerable persons from being harmed or exploited by gambling.
- 1.6 The Licence Conditions and Codes of Practice (LCCP) sets out the requirements by which the Licensing Objectives are protected. Local risk assessment seeks to identify whether there are additional risks specific to the geographical locality in which the premises is located that need to be highlighted and taken into consideration.

### Local area risk assessments (gamblingcommission.gov.uk)

- 1.7 Due to the challenges of providing generic guidance when the intention of local risk assessment is specifically aimed at individual site locations, it should be borne in mind that this document seeks to cover many contingencies so as to benefit a wide range of companies and their differing requirements. Therefore it is stressed that operators should tailor this guidance and the supporting example (template) report so as to be relevant to their individual and specific circumstances. Similarly Appendix 'A' (Evaluating Risk) is purely suggested as a means of assessing a level of risk, and Companies may deem other matrixes to be more appropriate for their specific needs.
- 1.8 A template, appended to this document, giving examples of identified risks and the measures that have been put in place to mitigate harm to the Licensing Objectives should be considered in a similar light.
- 1.9 The writing of this document has taken into account the views expressed by the Gambling Commission and Local Authority Licensing sources.

### 2. Introduction

- 2.1 The Gambling Commission (the Commission) has introduced new provisions in its social responsibility codes (10.1.1 & 10.1.2) within the Licence Conditions and Codes of Practice (LCCP), which require gambling operators to assess local risks to the Licensing Objectives posed by the provision of gambling facilities at each of their premises and to have policies, procedures and control measures in place to mitigate those risks. This change in national policy is intended to provide a well evidenced and transparent approach to considering and implementing measures to address the risks associated with gambling.
- 2.2 The introduction of new provisions in the social responsibility code within the LCCP encourages local authorities and the Commission to work in partnership with the industry to address local issues and concerns. Bacta's expectation is that a risk-based approach to regulation by licensed operators will free up local authorities to prioritise their resources where they are most needed and can be most effective.
- 2.3 A risk based approach provides a better understanding, and enables a proportionate response, benefiting the well-being of both the licenced company and its customers. Such an approach should include looking at future risks and thinking about risks in a probabilistic way. Risk is not necessarily related to an event that has happened; risk is related to the probability of an event happening and the likely impact of that event. In this case it is the risk of any impact on the Licensing Objectives.
- 2.4 Bacta, having due regard to input received from local authority sources and the Commission, has developed this guidance to assist its membership in undertaking and preparing their local (premises) risk assessments. This guidance document seeks to provide a framework for the local risk assessment process that is aimed to promote, as far as it is possible, a uniform approach across the Adult Gaming Centre (AGC), Family Entertainment Centre (FEC) and Bingo sectors. This will benefit licensing authorities under the Gambling Act 2005 when applications are forthcoming for new premises licences and variations to existing premises and enable local authorities to move to a more proportionate compliance inspection regime.
- 2.5 Licenced gambling operators will be required to undertake a risk assessment for all of their existing premises by 6 April 2016. Following that date, operators must also undertake a review of those assessments when certain triggers are met. These triggers, along with local authority expectation on what would instigate either a new assessment or the review of an existing one are detailed within this guidance document.
- 2.6 The local risk assessment process is not the same as other forms of risk assessment undertaken by gambling operators, such as Health and Safety at Work, Fire Safety and Food Hygiene. These local risk assessments are specific to the potential harm that gambling premises can have on one or more of the Licensing Objectives under the Act. They are specific to the premises, the local area and the local community.

### з. Background

- 3.1 Councils are licensing authorities under the Act. A licensing authority is responsible for considering and determining applications for premises licences which offer gambling facilities within their respective jurisdictions. Licensing authorities also have a role in gambling regulation by ensuring compliance with the Act.
- 3.2 The Act contains three Licensing Objectives which guide the way that gambling operators conduct their activities and how licenced authorities perform their functions. They are:
  - Preventing gambling from being a source of crime or disorder, being associated with crime or disorder, or being used to support crime.
  - Ensuring that gambling is conducted in a fair and open way.
  - Protecting children and other vulnerable persons from being harmed or exploited by gambling.
- 3.3 The Act places a legal duty on licensing authorities to aim to permit gambling in so far as they consider it reasonably consistent with the Licensing Objectives. The effect of this duty is that licensing authorities must approach their functions in a way that seeks to regulate gambling by using vested powers where appropriate rather than by setting out to prevent gambling altogether.
- 3.4 Licensing authorities set out how they intend to carry out their functions under the Act in Statements of Licensing Principles, also known as Licensing Policies. These statements are kept under review and updated every three years (as a minimum).
- 3.5 The Gambling Commission is responsible for issuing operating licences to gambling operators who are deemed suitable and competent to provide facilities for gambling. As a requirement of these operating licences, operators must ensure that they comply with and meet the requirements of the Licence Conditions and Codes of Practice (LCCP).
- 3.6 In February 2015, following consultation period with relevant stakeholders the Commission introduced a new social responsibility code provision making it a requirement for certain gambling operators to assess possible local risks to the Licensing Objectives posed by each of their 'land-based' gambling venues. The Commission also introduced an ordinary code provision relating to sharing local risk assessments. The provisions of the codes are:

Social Responsibility Code Provision 10.1.1.

### **Assessing Local Risk**

All non-remote casino, Adult Gaming Centre, Bingo, Family Entertainment Centre, betting and remote betting intermediary (trading room only) licences, except non-remote general betting (limited) and betting intermediary licences.

This provision comes into force on 6 April 2016

1 Licensees must assess the local risks to the licensing objectives posed by the provision of gambling facilities at each of their premises, and have policies, procedures and control measures to mitigate those risks. In making risk assessments, licensees must take into account relevant matters identified in the licensing authority's statement of licensing policy.

- 2 Licensees must review (and update as necessary) their local risk assessments.
  - To take account of significant changes in local circumstances, including those identified in a licensing authority's statement of licensing policy.
  - When there are significant changes at a licensee's premises that may affect the mitigation of local risks.
  - When applying for a variation of a premises licence.
  - In any case, undertake a local risk assessment when applying for a new premises licence.

### Ordinary code provision 10.1.2

### Sharing local risk assessments

All non-remote casino, Adult Gaming Centre, Bingo, Family Entertainment Centre, betting and remote betting intermediary (trading room only) licences, except non-remote general betting (limited) and betting intermediary licences

This provision comes into force on 6 April 2016

1 Licensees should share their risk assessment with licensing authorities when applying for a premises licence or applying for a variation to existing licensed premises, or otherwise on request.

### 4. Risk assessment triggers

4.1 The local risk assessment code provisions provide a number of triggers for when a new assessment is required and for when an existing one requires review. This section relates to what these triggers may be and when operators should provide a copy of their assessments to a licensing authority.

### **New premises**

4.2 If an operator intends to apply for a new premises licence under Part 8 of the Act, then a local risk assessment must be carried out. The assessment should be based on how the premises are proposed to operate at the venue location and must take into account the local area. The completed assessment should be provided with the application for a new premises licence upon submission to the licensing authority.

### Significant changes in local circumstances

- 4.3 Operators are required to review their local risk assessment if significant changes in local circumstances occur. Changes to local circumstances happen frequently and can be either temporary or permanent depending on the change, how long that change will remain in place and how it affects the local area. However, the requirement for review of the risk assessment is only applicable when that change is significant.
- 4.4 The following lists sets out some examples of what the Licensing Authority may consider being significant changes in local circumstances.
  - The local area is classified or declassified by the Licensing Authority as being an area of heightened risk within its Statement of Licensing Principles.

- An increase of educational facilities in the local area. This may occur as a result of the construction
  of a new school/college, or where a significant change is made to an existing establishment.
- The local area is identified as a crime hotspot by the police and/or licensing auth ority.
- Venues relating to the care of vulnerable groups are opened in proximity to gambling premises (e.g. additional homeless hostels or when gambling or mental health care/support facilities are opened in the local area).
- The list above is not an exhaustive list of significant changes in local circumstances. Licensing authorities may provide information to gambling operators when it feels a significant change has occurred in the local area and set out what that change is and any specific concerns they may have that should be considered by operators. However, operators themselves must also consider what is happening in their local areas and it is their responsibility to identify significant changes which may require a review and possibly an amendment to their risk assessment. A significant change can be temporary and any temporary changes should be considered and adjustments made to the local risk assessment if necessary.

### Significant changes to the premises

- 4.6 From time to time operators will undertake refurbishment of a premises layout and décor which, in itself, is unlikely to prompt a review of the risk assessment for that premises. However, where there is a significant change at the premises that may affect the mitigation of local risks, then an operator must review its risk assessment and if necessary update it, taking into account the change and how it may affect one or more of the Licensing Objectives.
- 4.7 The following list sets out some examples of what local authorities may consider being significant changes to premises (some of which may also require a variation to the existing premises licence). As with the examples of significant changes in local circumstances set out above, the following list is not an exhaustive list of significant changes to premises operators must consider whether any change that they are proposing to their premises is one that may be considered significant.
  - Any building work or premises refit where gambling facilities are relocated within the premises.
  - The premises licence is transferred to a new operator who will operate the premises with procedures and policies which are different to those of the previous licensee.
  - New gambling facilities are made available on the premises which were not provided previously.
- 4.8 Licensing authorities will probably not, as a general practice, request a copy of the reviewed risk assessment if a significant change to the licensed premises has occurred, unless the change is one that will necessitate a variation application.

### Variation of the premises licence

- 4.9 Variations to premises licences are only those required to be made under section 187 of the Act and will not include changes of circumstances such as a change of premises' name or a change of licensee's address.
- 4.10 When preparing an application to vary the premises licence the operator must undertake a review of the local risk assessment and update it if necessary. Operators submitting a variation application to a licensing authority will, in all probability, be asked to provide a copy of the reviewed local risk assessment when submitting the application.

### Regular review of risk assessment

4.11 As a matter of best practice operators should consider establishing a regular review regime in respect of their local risk assessments.

### 5. Local risks and control measures

- 5.1. There are two specific parts to the risk assessment process; the assessment of the local risks and the determination of appropriate mitigation to reduce those risks.
- 5.2 The risks that operators must identify relate to the potential impact a gambling premises and its operation may have on the Licensing Objectives. Gambling operators will be expected to identify and list all of the local risks within the assessment. The level of such risks can range from being low to very high depending on the potential impact they can have on the licensing objectives. The level of any given risk will have a direct impact on the type and extent of the control measures necessary to mitigate such risk.
- 5.3 Operators will be familiar with identifying risks in relation to health and safety and food hygiene legislation. The local risk assessment process although similar- requires a broader range of considerations. Operators must consider the local area in which the premises are situated, the gambling operation and the premises both internally and externally.

### Local area risks

- 5.4 There is a number of factors relating to the local area that operators will need to consider which is independent of who the operator believes is their target market. A few examples of these factors are listed below.
  - Categories of neighbouring premises and how they are operated in the locale.
  - The footfall in the local area, for example, does it predominately comprise residents,
     workers or visitors; is it a family orientated area, popular with children and young people?
  - Educational facilities.
  - Residential accommodation for the vulnerable.
  - Hospitals, mental health or gambling care providers.

### Gambling operational risks

- 5.5 The gambling operation relates to how the premises will be run and the business model. It will include the operator's policies and procedures, which have been put in place to meet the requirements of the business, the Act and/or specific code provisions within the LCCP. It will also include other elements such as:
  - The type of gambling products it provides in the premises.
  - Marketing material within the premises.
  - Security and crime prevention arrangements.
  - The provision of information to customers.

- 5.6 It is likely that the identification of risks associated with this element of the assessment will be very similar across the sector with slight variations depending on any specific factors that relate to the premises or the local area.
- 5.7 The control measures that operators will put in place to mitigate any risk associated with the gambling operation will be dependent on the type of gambling activities provided, how the company operates and the size of the organisation.

### Premises design risks

- 5.8 The design of the premises is an important factor when considering local risks. For example, age controlled premises which are located within an area which has a high number of children and young people present throughout the day will want to ensure that children and young people are not attracted in to any adult only premises.
- 5.9 As part of the design process, the layout of the premises is a major consideration to ensure effective monitoring of age restricted premises and areas and the prevention of crime on the premises.

### Interior design risks

- 5.10 The internal design and layout of the premises reflects the premises operation and the type of gambling facilities that it offers. For some premises the design will be subject to certain limitations due to mandatory conditions on the gambling premises licence.
- 5.11 Operators will need to assess the risk presented by the internal layout of the premises and the location of gambling facilities within them. For example, if a gaming machine is placed within the direct line of sight of the cashier counter then staff will be able to monitor player behaviour. Staff can also monitor the use of the machines and can challenge any customers who are believed to be under the age of 18 (think 25), or who damage the machines, or who appear to be attempting to launder money. By a simple assessment of the optimum location for these machines, operators can significantly reduce the risk to the licensing objectives.

### Exterior design risks

5.12 The exterior of premises will be a major advertisement for the gambling operator. However, the design will need to be assessed based on any possible associated risks. Operators will identify the risk associated with the design and introduce control measures based on that perceived risk. For example, if the premises have a large amount of glass frontage in an area prone to criminal damage, operators may consider the risk of damage to the standard toughened glass to be high and introduce a control measure such as roller shutters and/or external CCTV cameras.

### **Control measures**

- 5.13 Depending on the nature of the risk factors, the control measures identified to mitigate the perceived risk may be a combination of systems, design and physical measure. Control measures that relate to systems will be measures that have been put in place though policies and procedures. These can either be systems that apply to all of the operator's premises or systems that have been developed specifically for particular premises to deal with a specific local risk factor. System control measures will include staff training, security policies and procedures.
- 5.14 Design control measures are measures that are built into the design of the premises. These can include the location of gambling facilities and the design and location of cashier counters within the premises, and the

exterior design of premises. For example, a control measure for the interior of the premises could involve positioning a cashier counter from the rear of the premises to the front next to the main entrance or realignment of CCTV cameras/mirrors where entrance(s) can be effectively monitored for age verification, the detection of crime and customer interaction purposes.

- 5.15 The final control measures relate to specific physical measure that will address an identified risk factor.

  These physical control measures may, for example, include intruder alarms, exterior CCTV cameras, reinforcement of doors, time locks on safes, window shutters.
- 5.16 As already indicated, the control measures identified to mitigate a perceived risk may involve a combination of systems, design and physical measures. For example to address the risk factors relating to children gaining access to an over 18 restricted gambling premises, the operator may identify the following control measures:

Systems: PASS card or age verification policies, challenge 21 scheme, and staff training.

**Design:** Exterior design which will not attract children into the premises, the entrance layout will enable staff to monitor those entering the premises and when appropriate, challenge them

on the grounds of age.

**Physical:** CCTV and electronic sensors.

### 6. Undertaking a local risk assessment

- A local risk assessment of gambling premises should be carried out through a step-by-step approach. One suggested approach is to first assess the local area and identify the relevant risk factors, then to assess the gambling operation and finally to assess the premises design, both internal and external. Once the risk factors have been identified, the control measures to mitigate the risks should be considered. These control measures will either already be in place or will need to be implemented.
- To assist, bacta has designed a suggested local risk assessment template that guides and encompasses a step-by-step approach to the assessment (See Appendix A). The template also enables the assessor to identify actions such as the installation or production of control measures, the individual made responsible for carrying out those actions and to record when those actions were completed.

### Who should undertake to write the risk assessment?

6.3 It will be the responsibility of the gambling operator to assign the assessor for assessing the local risks for their premises. The person assigned as the assessor must be competent to undertake this role as failure properly to carry out this function could be seen to constitute a breach of the provisions of the LCCP. The assessor must understand how the premises operate or will operate, its design and where it is located. The assessor will need to understand the local area and can use staff or area managers to assist in gaining an understanding of that local area. In addition websites are available to assist in the process.

### Step 1: The local area

Operators will be expected to identify the local risk factors surrounding the premises. The risk factors will differ from location to location so an understanding of the specific characteristics of the local area and the people who live, work or visit that area is important.

- 6.5 To assist in assessing the local area the licensing authorities may produce a Local Area Profile within its

  Statement of Licensing Principles. The Local Area Profile sets out the demographic profile of areas of the

  City and the specific concerns and risks that the Licensing Authority has identified in relation to gambling in those areas.
- 6.6 The first step is to identify the local risk factors associated with the local area in which the premises are located. Local risk factors are risks that affect one or more of the Licensing Objectives. Licensing authority Statements of Principles will identify some of these risk factors which are considered to be of significance within the curtilage of their responsibility.

### Step 2: The gambling operation

- 6.7 In assessing the risk factors associated with a gambling operation the assessor should take into account the local risks which are commonly accepted by broader stakeholders and how that gambling operation may affect that risk. The assessor may wish to consider:
  - How the gambling operation will relate to how the operator conducts the business.
  - What gambling products it provides on the premises.
  - The staffing levels within the premises.
  - The level and requirement for staff training.
  - The policies and procedures it has in place in relation to regulatory requirements of the Act or to comply with the LCCP.
  - The security and crime prevention arrangements it has in place.
  - How it advertises locally and on the premises.
  - The marketing material within the premises.

### Step 3: The design of the premises

- 6.8 The design and layout of the premises is a key consideration as this could have an impact on the risk to the licensing objectives. The design, both internal and external should be considered and specific risk factors identified and noted. For example:
  - The premises may have a number of support pillars which the assessor identifies as obstructing the view of the gaming machines from the cashier counter.
  - The positioning of CCTV is such that effective coverage ensures identification of those carrying out machine related crime, self-excluded persons and to assist with age verification.

### Step 4: Control measures

6.9 Once the risk factors have been identified, the assessor should seek to identify control measures that would mitigate the identified risks. Such control measures will relate to one of the three categories of control measures mentioned above (systems, design and physical). Some risk factors may require a combination of control measures to adequately mitigate the risk.

### Completed assessment

- 6.10 The control measures must be implemented on the premises and if applicable, staff on the premises should be trained in their use or trained on any new policy or procedure. The assessment must be retained and should be reviewed whenever a trigger occurs or as part of a regular review regime (see part 3 above).
- 6.11 Licensing authorities may assess the risks identified and the measures implemented to mitigate those risks.

  When a completed assessment is provided with a new application or with a variation application, the authority will consider the assessment in the course of determining whether to grant the application or not.

**Evaluating Risk** 

### <u>Likelihood</u>

How likely is it that the local circumstances may result in harm?

- Highly Unlikely
- Unlikely
- Possible
- Probable
- Certain

### Severity

If exposure to risk does result in harm, how severe is the harm likely to be?

- Trivial adverse effect
- Minor adverse effect but self-manageable with minimal or no intervention
- Troublesome effect manageable by intervention with customer
- Major effect requiring outside intervention
- Serious adverse effect requiring immediate remedial action

### Local Area Profile

The AGC is located in the town centre within a primary shopping centre and adjacent to arr underground railway station on one side and a newsagent on the other. There is a wide range of retail outlets in the close vicinity including banks, licensed betting offices, fast food outlets and a church. There are no public houses, night clubs schools or colleges in the immediate vicinity.

The venue is large, in the shape of a square, with a twenty-foot frontage but just the one door opening on to the footway. No auxiliary activities or facilities are offered other than gambling machines of category B3, C and D.

There are no known local problems with crime or anti-social behaviour linked to gambling but there is a certain amount of anti-social behaviour such as litter and graffiti. Vandalism/criminal damage has been of concern historically but reinstated regular police patrols in the town centre have had a positive effect, especially during evenings.

Our regulatory return data does not reflect any specific problems associated with consumer complaints, the need to call police for assistance or attempts by children and young persons to enter the premises.

# Gambling Act 2005 - The Licensing Objectives

- Preventing gambling from being a source of crime or disorder, being associated with crime or disorder or being used to support crime;
- (B) Ensuring that gambling is conducted in a fair and open way; and
- 0 Protecting children and other vulnerable people from being harmed or exploited by gambling.

It is stressed that this is an example report of what is expected to satisfy the requirements of producing a local risk assessment. Factors will inevitably vary from location to location so it is important to carry out a local area profile where your businesses are located.
