HSF6 Anticipated number of households helped

Notes
The totals cells which autopopulate have been greyed out and locked for editing. Please only input into the blue cells.

Please ensure that any anticpated volume figures you provide are presented in whole numbers. If any other format is input an error message will appear. If this is not followed your Delivery Plan will be returned for completion.

The traffic light system will help you ensure the template is completed in full. For the return to be compliant, all traffic lights must be green with a white tick.

If there are no anticipated numbers to report, in order to enable the green light with white tick next to each table, the cells should still be completed with 0 (zero as a numerical value rather than typing out 'NIL', for example).

The acronym FSM used in the tables below refers to Free School Meals.

17) Anticipated number of households helped split by household composition

Households with children	Households with pensioners	Households with a disabled person	Other households	Anticipated total number of vulnerable households helped (by household composition)
10335	4739	743	2537	18354
