

Progress report
Middlesbrough Council

April 2025

1. Audit Progress

This report sets out progress on the external audit for 2024/25.

2024/25 Audit

Status of the audit

We are about to start our planning work for the 2024/25 audit period. As part of our planning, we have met with finance officers to discuss the timetable and key identified risks. We will continue to have regular catch-up meetings with the finance team as the audit progresses.

We intended to issue our Audit Strategy Memorandum to the Audit Committee in April 2025, but the rebuilding assurance guidance is not yet available. An early view of the draft timeline and our current risk assessment for the 2024/25 audit is set out in this document.

We will agree a more detailed timetable for our work with your team when the guidance is available.

Engagement and responsibilities summary

We are appointed to perform the external audit of Middlesbrough Council (the Council) for the year to 31 March 2025. The scope of our engagement is set out in the Statement of Responsibilities of Auditors and Audited Bodies, issued by Public Sector Audit Appointments Ltd (PSAA) available from the PSAA website: [Statement of responsibilities of auditors and audited bodies from 2023/24](#). Our responsibilities are principally derived from the Local Audit and Accountability Act 2014 (the 2014 Act) and the Code of Audit Practice issued by the National Audit Office (NAO), as outlined below.

Audit opinion

We are responsible for forming and expressing an opinion on whether the financial statements are prepared, in all material respects, in accordance with the Code of Practice on Local Authority Accounting.

Our audit does not relieve management or Audit Committee, as Those Charged With Governance, of their responsibilities.

The Chief Finance Officer is responsible for the assessment of Middlesbrough Council's ability to continue as a going concern. As auditors, we are required to obtain sufficient, appropriate audit evidence regarding, and conclude on:

- a) whether a material uncertainty related to going concern exists, and
- b) the appropriateness of the Chief Finance Officer's use of the going concern basis of accounting in the preparation of the financial statements.

Internal control

Management is responsible for such internal control as they determine necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

We are responsible for obtaining an understanding of internal control relevant to our audit and the preparation of the financial statements to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Middlesbrough Council's internal control framework.

Whole of Government Accounts

We report to the NAO on the consistency of the Council's financial statements with its Whole of Government Accounts (WGA) submission.

Fraud

The responsibility for safeguarding assets and for the prevention and detection of fraud, error, and non-compliance with law or regulations rests with both you and management. This includes establishing and maintaining internal controls over asset protection, compliance with relevant laws and regulations, and the reliability of financial reporting.

As part of our audit procedures in relation to fraud, we are required to inquire of you and key management, internal audit and other key individuals, where relevant, on their knowledge of instances of fraud, and their views on the risks of fraud and on internal controls that mitigate those risks. In accordance with International Standards on Auditing (UK), we plan and perform our audit to obtain reasonable assurance that the financial statements taken as a whole are free from material misstatement, whether due to fraud or error. Our audit, however, should not be relied upon to identify all such misstatements.

Value for money arrangements

We are also responsible for forming a view on the arrangements that the Council has in place to secure economy, efficiency and effectiveness in its use of resources. We discuss our approach in the 'Value for money' section of this report.

Wider reporting and electors' rights

The 2014 Act requires us to give an elector, or any representative of the elector, the opportunity to question us about the accounts of the Council and consider objections made to the accounts. We also have a broad range of reporting responsibilities and powers that are unique to the audit of local authorities in the United Kingdom.

2. Your audit engagement team

Your external audit service will be led by Mark Kirkham.

Materiality and misstatements

Definitions

Materiality is an expression of the relative significance or importance of a particular matter in the context of the financial statements as a whole.

Misstatements in the financial statements are considered to be material if they could, individually or in aggregate, reasonably be expected to influence the economic decisions of users based on the financial statements.

Materiality

We determine materiality for the financial statements as a whole (overall materiality) using a benchmark that, in our professional judgement, is most appropriate to entity. We also determine an amount less than materiality (performance materiality), which is applied when we carry out our audit procedures and is designed to reduce to an appropriately low level the probability that the aggregate of uncorrected and undetected misstatements exceeds overall materiality. Further, we set a threshold above which all misstatements we identify during our audit (adjusted and unadjusted) will be reported to Audit Committee.

Judgements on materiality are made in light of surrounding circumstances and are affected by the size and nature of a misstatement, or a combination of both. Judgements about materiality are based on a consideration of the common financial information needs of users as a group and not on specific individual users.

An assessment of what is material is a matter of professional judgement and is affected by our perception of the financial information needs of the users of the financial statements. In making our assessment we assume that users:

- have a reasonable knowledge of business, economic activities, and accounts;
- have a willingness to study the information in the financial statements with reasonable diligence;
- understand that financial statements are prepared, presented, and audited to levels of materiality;
- recognise the uncertainties inherent in the measurement of amounts based on the use of estimates, judgement, and consideration of future events; and
- will make reasonable economic decisions based on the information in the financial statements.

We consider overall materiality and performance materiality while planning and performing our audit based on quantitative and qualitative factors.

When planning our audit, we make judgements about the size of misstatements we consider to be material. This provides a basis for our risk assessment procedures, including identifying and assessing the risks of material misstatement, and determining the nature, timing and extent of our responses to those risks.

The overall materiality and performance materiality that we determine does not necessarily mean that uncorrected misstatements that are below materiality, individually or in aggregate, will be considered immaterial.

We revise materiality as our audit progresses should we become aware of information that would have caused us to determine a different amount had we been aware of that information at the planning stage.

Significant risks and other key judgement areas

Following the risk assessment approach set out in the *'Audit scope, approach, and timeline'* section, we have identified the risks of material misstatement in the financial statements. These risks are categorised as significant, enhanced, or standard. The definitions of these risk ratings are set out below.

Significant risk

A risk that is assessed as being at or close to the upper end of the spectrum of inherent risk, based on a combination of the likelihood of a misstatement occurring and the magnitude of any potential misstatement. As required by auditing standards, a fraud risk is always assessed as a significant risk.

Enhanced risk

An area with an elevated risk of material misstatement at the assertion level, other than a significant risk, based on factors/ information inherent to that area. Enhanced risks require additional consideration but do not rise to the level of a significant risk. These include but are not limited to:

- key areas of management judgement and estimation uncertainty, including accounting estimates related to material classes of transaction, account balances, and disclosures but which are not considered to give rise to a significant risk of material misstatement; and
- risks relating to other assertions and arising from significant events or transactions that occurred during the period.

Standard risk

A risk related to assertions over classes of transaction, account balances, and disclosures that are relatively routine, non-complex, tend to be subject to systematic processing, and require little or no management judgement/ estimation. Although it is considered that there is a risk of material misstatement, there are no elevated or special factors related to the nature of the financial statement area, the likely magnitude of potential misstatements, or the likelihood of a risk occurring.

Significant risks and other key judgement areas

Other considerations

In consideration of ISA (UK) 260 *Communication with Those Charged With Governance*, we would like to seek your views/ knowledge of the following matters:

- Did you identify any other risks (business, laws & regulation, fraud, going concern etc.) that may result in material misstatements?
- Are you aware of any significant communications between Middlesbrough Council and regulators?
- Are there any matters that you consider warrant particular attention during the course of our audit, and any areas where you would like additional procedures to be undertaken?

We plan to do this by formal letter to the Audit Committee which we will obtain prior to completing our audit

Significant difficulties encountered during the course of audit

In accordance with ISA (UK) 260 *Communication with Those Charged With Governance*, we are required to communicate certain matters to you which include, but are not limited to, significant difficulties, if any, that are encountered during our audit. Such difficulties may include matters such as:

- significant delays in management providing information that we require to perform our audit;
- an unnecessarily brief time within which to complete our audit;
- extensive and unexpected effort to obtain sufficient appropriate audit evidence;
- unavailability of expected information;
- restrictions imposed on us by management; and
- unwillingness by management to make or extend their assessment of an entity's ability to continue as a going concern when requested.

We will highlight to you on a timely basis should we encounter any such difficulties (if our audit process is unduly impeded, this could require us to issue a modified auditor's report).

Value for money arrangements

The framework our work

We are required to form a view as to whether the Council has made proper arrangements for securing economy, efficiency and effectiveness in its use of resources. The NAO issues guidance to auditors that underpins the work we are required to carry out in order to form our view and sets out the overall criterion and sub-criteria that we are required to consider.

This will be the first audit year where we are undertaking our value for money (VFM) work under the full 2024 Code of Audit Practice (the Code). Our responsibility remains to be satisfied that the Council has proper arrangements in place, and to report in the auditor's report where we are not satisfied that arrangements are in place. Where we have issued a recommendation in relation to a significant weaknesses this indicates we are not satisfied that arrangements are in place. Separately we provide a commentary on the Council's arrangements in the Auditor's Annual Report.

A key change in the 2024 Code of Audit Practice is the requirement for us to issue our Auditor's Annual Report for the year ended 31st March 2025 to you in draft by the 30th November 2025. This is required whether our audit is complete or not. Should our work not be complete, we will report the status of our work and any findings to up to that point (and since the issue of our previous Auditor's Annual Report). Further information will be provided in Appendix A.

Specified reporting criteria

The Code requires us to structure our commentary to report under three specified criteria:

1. **Financial sustainability** – how the Council plans and manages its resources to ensure it can continue to deliver its services;
2. **Governance** – how the Council ensures that it makes informed decisions and properly manages its risks; and
3. **Improving economy, efficiency and effectiveness** – how the Council uses information about its costs and performance to improve the way it manages and delivers its services.

Our approach

Our work falls into three primary phases as outlined opposite. We gather sufficient evidence to support our commentary on the Council's arrangements and to identify and report on any significant weaknesses in arrangements. Where significant weaknesses are identified, we are required to report these to the Council and make recommendations for improvement. Such recommendations can be made at any point during the audit cycle, and we are not expected to wait until issuing our overall commentary to do so.

Planning	Obtaining an understanding of the Council's arrangements for each specified reporting criteria. Relevant information sources will include: <ul style="list-style-type: none">• NAO guidance and supporting information;• information from internal and external sources including regulators;• knowledge from previous audits and other audit work undertaken in the year; and• interviews and discussions.
Additional risk based procedures and evaluation	Where our planning work identifies risks of significant weaknesses, we will undertake additional procedures to determine whether there is a significant weakness.
Reporting	We will provide a summary of the work we have undertaken and our judgements against each of the specified reporting criteria as part of our commentary on arrangements which forms part of the Auditor's Annual Report. Our commentary will also highlight: <ul style="list-style-type: none">• significant weaknesses identified and our recommendations for improvement; and• emerging issues or other matters that do not represent significant weaknesses but still require attention from the Council.

Value for money arrangements

Identified risks of significant weaknesses in arrangements

The NAO's guidance requires us to carry out work at the planning stage to understand the Council's arrangements and to identify risks that significant weaknesses in arrangements may exist.

Although we have not fully completed our planning and risk assessment work.

As part of our prior year audit, we identified significant weaknesses in the Council's arrangements. We will assess progress against the significant weaknesses identified as part of our 2024/25 audit.

We will report any further identified risks to the Audit Committee on completion of our planning and risk identification work.

Appendices

A: Key communication points

B: Current year updates, forthcoming accounting and other issues

C: Consultations on measures to tackle the local government financial reporting and audit backlog

Appendix A: Key communication points

We value communication with Audit Committee, as a two-way feedback process is at the heart of our client service commitment. The Code of Audit Practice as well as ISA (UK) 260 *Communication with Those Charged With Governance* and ISA (UK) 265 *Communicating Deficiencies In Internal Control To Those Charged With Governance And Management* specifically require us to communicate a number of matters with you. We meet these requirements, principally, through presenting the following documents to you:

- Our Audit Strategy Memorandum;
- Our Audit Completion Report; and
- Our Auditor's Annual Report.

These documents will be discussed with management prior to being presented to you and their comments will be incorporated as appropriate.

Relevant points that need to be communicated with you at each stage of the audit are outlined below.

Key communication points at the planning stage as included in this Audit Strategy Memorandum

- Our responsibilities in relation to the audit of the financial statements.
- The planned scope and timing of the audit.
- Significant audit risks and areas of management judgement.
- Our commitment to independence.
- Responsibilities for preventing and detecting errors.
- Materiality and misstatements.
- Fees for audit and other services.

Key communication points at the completion stage to be included in our Audit Completion Report

- Significant deficiencies in internal control.
- Significant findings from the audit.
- Significant matters discussed with management.
- Significant difficulties, if any, encountered during the audit.
- Qualitative aspects of the entity's accounting practices, including accounting policies, accounting estimates and financial statement disclosures.
- Our conclusions on the significant audit risks and areas of management judgement.
- Summary of misstatements.
- Management representation letter.
- Our proposed draft audit report.
- Independence.

Changes introduced by the 2024 Code of Audit Practice

The 2024 Code now requires the auditor to issue the draft Auditor's Annual Report by 30th November following each year end. For the 2024/25 audit, this means that we must issue our draft Auditor's Annual Report by 30 November 2025, whether our audit is complete or not.

In instances where our audit work is not complete by 30 November for any given year, the 2024 Code requires us to provide a summary of the status of the audit at the time of issuance and should reflect the work completed to date since we issued our previous Auditor's Annual Report. In such instances, we will issue an Interim Auditor's Annual Report to meet the 30 November deadline. On completion of any outstanding financial statement audit work or Value for Money arrangements work, we will re-issue the Auditor's Annual Report which will include an updated commentary on Value for Money arrangements.

Appendix A: Key communication points

ISA (UK) 260 *Communication with Those Charged With Governance*, ISA (UK) 265 *Communicating Deficiencies In Internal Control To Those Charged With Governance And Management* and other ISAs (UK) specifically require us to communicate the following:

Required communication	Where addressed
Our responsibilities in relation to the financial statement audit and those of management and Those Charged With Governance.	Audit Strategy Memorandum
The planned scope and timing of the audit including any limitations, specifically including with respect to significant risks.	Audit Strategy Memorandum
With respect to misstatements: <ul style="list-style-type: none"> • uncorrected misstatements and their effect on our audit opinion; • the effect of uncorrected misstatements related to prior periods; • a request that any uncorrected misstatement is corrected; and • in writing, corrected misstatements that are significant. 	Audit Completion Report
With respect to fraud communications: <ul style="list-style-type: none"> • inquiries with Audit Committee to determine whether you have knowledge of any actual, suspected, or alleged fraud affecting the Council; • any fraud that we have identified or information we have obtained that indicates that fraud may exist; and • a discussion of any other matters related to fraud. 	Audit Completion Report and discussion at Audit Committee meeting(s), audit planning meeting(s), and audit clearance meeting(s)

Appendix A: Key communication points

Required communication	Where addressed
<p>Significant matters arising during the audit in connection with the entity’s related parties including, when applicable:</p> <ul style="list-style-type: none"> • non-disclosure by management; • inappropriate authorisation and approval of transactions; • disagreement over disclosures; • non-compliance with laws and regulations; and • difficulty in identifying the party that ultimately controls the entity. 	<p>Audit Completion Report</p>
<p>Significant findings from the audit including:</p> <ul style="list-style-type: none"> • our view about the significant qualitative aspects of accounting practices including accounting policies, accounting estimates and financial statement disclosures; • significant difficulties, if any, encountered during the audit; • significant matters, if any, arising from the audit that were discussed with management or were the subject of correspondence with management; • written representations that we are seeking; • expected modifications to the audit report; and • other matters, if any, significant to the oversight of the financial reporting process or otherwise identified in the course of the audit that we believe will be relevant to Council or Audit Committee in the context of fulfilling your responsibilities. 	<p>Audit Completion Report</p>

Appendix A: Key communication points

Required communication	Where addressed
Significant deficiencies in internal controls identified during the audit.	Audit Completion Report
Where relevant, any issues identified with respect to the Council to obtain external confirmations or inability to obtain relevant and reliable audit evidence from other procedures.	Audit Completion Report
Audit findings regarding non-compliance with laws and regulations where the non-compliance is material and believed to be intentional (subject to compliance with legislation on tipping off) and inquiry of Audit Committee into possible instances of non-compliance with laws and regulations that may have a material effect on the financial statements that Audit Committee may be aware of.	Audit Completion Report and Audit Committee meeting(s)
<p>With respect to going concern, events or conditions identified that may cast significant doubt on the entity's ability to continue as a going concern, including:</p> <ul style="list-style-type: none"> • Whether the events or conditions constitute a material uncertainty; • Whether the use of the going concern assumption is appropriate in the preparation and presentation of the financial statements; and • The adequacy of related disclosures in the financial statements. 	Audit Completion Report
<p>Communication regarding our system of quality management, compliant with ISQM (UK) 1, developed to support the consistent performance of quality audit engagements. To address the requirements of ISQM (UK) 1, our firm's System of Quality Management team completes, as part of an ongoing and iterative process, a number of key steps to assess and conclude on our System of Quality Management:</p> <ul style="list-style-type: none"> • ensure there is an appropriate assignment of responsibilities under ISQM (UK) 1 and across Leadership; • establish and review quality objectives each year, ensuring ISQM (UK) 1 objectives align with the firm's strategies and priorities; • identify, review, and update quality risks each quarter, taking into consideration the number of input sources (such as FRC / ICAEW review findings, internal monitoring findings, findings from our firm's root cause analysis and remediation functions, etc.); • identify, design, and implement responses as part of the process to strengthen our internal control environment and overall quality; and • evaluate responses and remediate control gaps or deficiencies. <p>We perform an evaluation of our system of quality management on an annual basis. Our first evaluation was performed as of 31 August 2023. Details of that assessment and our conclusion were set out in our 2022/2023 Transparency Report and our latest is set out in our 2023/24 Transparency Report, which is available here: Transparency reports - Forvis Mazars - United Kingdom.</p>	Audit Strategy Memorandum

Appendix B: Current year updates, forthcoming accounting & other issues

Current and forthcoming accounting issues

New standards and amendments

Effective for accounting periods beginning on or after 1 January 2019

IFRS 16 Leases (Issued January 2016)

- IFRS 16 Leases (IFRS 16) will replace the existing leasing standard, IAS 17, and will introduce significant changes, particularly for lessees. The requirements for lessors will be largely unchanged from the position in IAS 17. Lessees will need to recognise right of use assets and associated lease liabilities for all leases (except short-life or low-value leases) as the distinction between operating leases and finance leases is removed. Subsequent to initial recognition, a service concession arrangement liability will subsequently be measured following the principles set out in IFRS 16. The introduction of this standard is likely to lead to significant work being required in order to identify all leases and service concession arrangements to which the Council (and its schools) are party to. There will also be consequential impacts upon capital financing arrangements at many authorities which will need to be identified and addressed. IFRS 16 was adopted by the Code of Practice on Local Authority Accounting in 2024/25.

Effective for accounting periods beginning on or after 1 January 2023

IFRS 18 Presentation and Disclosure in Financial Statements (Issued April 2024)

- IFRS 18 Presentation and Disclosure in Financial Statements (IFRS 18) is a new standard that replaces IAS 1 Presentation of Financial Statements. The new standard aims to increase the comparability, transparency and usefulness of information about companies' financial performance. It introduces three key new requirements focusing on the presentation of information in the statement of profit or loss and enhancing certain guidance on disclosures within the financial statements. As IFRS 18 was only issued in April 2024 it has yet to be adopted by the Code of Practice on Local Authority Accounting in 2024/25 therefore the applicability to local government is to be determined.

Appendix B: Current year updates, forthcoming accounting & other issues

International Standard on Auditing (UK) 600 Revised - Special considerations - Audits of group financial statements (Including the work of component auditors)

ISA (UK) 600 deals with the special considerations that apply to audits of group financial statements, including those circumstances when component auditors are involved. The auditing standard has been revised. The revised standard is effective for audits of group financial statements for periods beginning on or after 15 December 2023. The revisions made to ISA (UK) 600 impact how we perform audits of group financial statements, and how we communicate our audit strategy and audit findings arising from audits of group financial statements, going forward. This page sets out the key changes made to ISA (UK) 600 and how Forvis Mazars will apply the requirements of the revised standard in practice.

Key changes

The previous ISA (UK) 600 included prescriptive requirements in respect of the audit procedures required over 'significant components' of a group, i.e., a 'full scope' audit of a significant component's financial information relevant to the group financial statements was required. Forvis Mazars defined a 'significant component' as one that contributed to the group financial statements more than 15% of the materiality benchmark selected to determine group materiality, e.g., if we had determined materiality using a profit before tax benchmark, any component that contributed more than 15% of the group's reported profit before tax would be classified as a significant component and a 'full scope' audit would be performed over that component's financial information.

ISA (UK) 600 Revised eliminates the 'significant component' concept, opting instead for consideration of risks of material misstatement at the assertion level of the group financial statements that are associated with components. This results in a group audit that is better focused on the risks of material misstatement of the group financial statements and affords greater flexibility in how we classify components and how we may design the nature and extent of audit procedures to be performed over a component's financial information, i.e., we can determine the nature and extent of the audit procedures to be performed over a component's financial information based on the specific risks relevant to the group financial statements.

ISA (UK) 600 also, however, removed the option to limit the procedures performed over a 'non-significant' component's financial information to desktop analytical procedures. We are now required to perform substantive audit procedures (or a combination of substantive audit procedures and tests of controls) over the group financial statements, including the financial information relating to components in the group, until the residual, untested balances, classes of transaction and disclosures in the group financial statements are below our group materiality. This is to ensure that aggregation risk (the probability that the aggregate of uncorrected and undetected misstatements exceeds materiality for the financial statements as a whole) is addressed appropriately.

In combination, these changes may result in a change to the nature and extent of the audit procedures we perform over the financial information of components on a group audit compared to previous years and may result in components that were not previously in scope of our group audit being brought into scope going forward to ensure that we address aggregation risk appropriately.

To ensure consistency of approach, Forvis Mazars will apply the definitions set out below when performing audits of group financial statements going forward:

Key component	Material component	Non-material component
Any component: i. Which is greater or equal to 15% of the benchmark chosen for calculating group materiality (key by size); or ii. Where the specific nature or circumstance of its financial information make it likely to include significant risks of misstatement of the group financial statements (key by risk).	Any component, other than a key component, that contributes to one or more group financial statement areas an amount that is above group financial statement materiality.	A component, that is not a key component or a material component, that is scoped into a group audit to reduce the risk of material misstatement of the group financial statements to an acceptably low level (based on size or risk) in situations when, after assessing which components are key components and material components, the aggregate amount of a financial statement area related to un-scoped components is still above group financial statement materiality.

Appendix B: Current year updates, forthcoming accounting & other issues

International Standard on Auditing (UK) 600 Revised - Special considerations - Audits of group financial statements (including the work of component auditors)

Key changes (continued)

Definition of ‘component’ - The definition of ‘component’ has been revised to “an entity, business unit, function or business activity, or some combination thereof, determined by the group auditor for the purposes of planning and performing audit procedures in a group audit”.

This provides clarity on how components may be identified in a group audit and may result in a change to how we identify components on a group audit compared to previous years. For example, we may group separate legal entities (e.g., subsidiaries) in a group based on common characteristics (such as common management, common information systems, and common geographical locations) and treat those components as a single component, when appropriate to do so.

Common controls - The definition of ‘group-wide’ controls has been removed and we are instead required to consider ‘common controls’, being controls that operate in a common manner for multiple entities or business units.

This may assist us in grouping separate legal entities, business units, functions, or business activities in a group into a single component for the purposes of a group audit; or it may result in us grouping specific account balances or classes of transaction recorded by individual legal entities, business units, functions, or business activities into a single population for the purposes of our audit procedures.

For audits where we are adopting a controls-based audit strategy, this may result in efficiencies, as we can rely on a single control for the purposes of the audits of more than one component where that control is common to those components.

Definition of ‘engagement team’ - The definition of ‘engagement team’ has been revised to include component auditors. While this change may seem inconsequential, it forms part of the overall changes intended by ISA (UK) 600 Revised to enhance two-way communication between the group auditor and component auditors during a group audit. This will result in enhanced direction and supervision of component auditors by the group auditor during a group audit.

Calculation of component materiality - The requirement to set overall materiality for a component has been removed. We are now only required to determine component performance materiality.

Other changes - ISA (UK) 600 Revised includes new and revised requirements and application material that better aligns the standard with recently revised standards such as ISQM (UK) 1, ISA (UK) 220, and ISA (UK) 315. The new and revised requirements also strengthen our responsibilities related to professional scepticism, planning and performing a group audit, two-way communications between the group auditor and component auditors, and audit documentation. These changes are to encourage proactive management of quality at the group engagement level and the component level; reinforce the need for robust communication and interactions during a group audit; and foster an appropriately independent and challenging sceptical mindset.

Scope of audit work to be performed over a component’s financial information - Forvis Mazars will, going forward, determine the scope of work to be performed over a component’s financial information on a group audit using the definitions set out below:

Full scope	Specific scope	Group Engagement Team Instructed Procedures
Designing and performing audit procedures on the entire financial information of a component.	Designing and performing audit procedures on one or more specified account balances, classes of transaction, and/ or disclosures of a component.	Performing specified audit procedures, as designed and instructed by the group engagement team.
