

# Live Well South Tees Health & Wellbeing Board

## Forward Work Programme

**2021 - 2023**

## LiveWell South Tees Approach (agreed June 2020)

Components of the Population Intervention Triangle

- Focus on PLACE (not organisations)
- Build common purpose (vision, values, common function) across members
- Shared insight and credible strategies
- Mission-driven & consistent
- Strong, collaborative leadership
- Closer connection to communities

The work programme of the HWB is a composite of the previously agreed Priorities (Dec 2017) and the sessions held in 2020 on:

- the impact of Covid-19 on the Delivery of Health and Wellbeing Priorities (where the approach above was agreed);
- Best Start in Life (March);
- Mental Health (September) and
- Inequalities (December)

The table below proposes an approach to building the “mission-driven” approach of the HWB, retaining coherence with what has been previously agreed.

### 1. Board Priorities (agreed at the joint HWB Development Session in December 2017)

- **Inequalities** - addressing the underlying causes of inequalities across the local communities;
- **Integration** - across planning, commissioning and service delivery;
- **Information and Data** - data sharing, shared evidence, community information, and information given to people

#### 1a Health Inequalities - addressing the underlying causes of inequality through a coordinated approach

Breakdown of key areas of consideration under “Inequalities” (Dec 2017):

- Tackling worklessness and addressing underlying health issues
- Tackling poverty, financial inclusion and welfare reforms
- A coordinated approach to tackle fuel poverty
- Violence prevention
- Promoting good mental Health and emotional well-being (see section below)
- Inclusive growth and maximising the benefits of economic development for all communities
- Healthy lifestyles
- Developing resilient communities

## Scope and Remit of the single Health and Wellbeing Board

(agreed at the joint HWB Development Session in December 2017)

<b>Vision:</b>	<b>Empower the citizens of South Tees to live longer and healthier lives</b>
<b>Priorities:</b>	<b>Inequalities</b> - addressing the underlying causes of inequalities across the local communities;  <b>Integration</b> - across planning, commissioning and service delivery;  <b>Information and Data</b> - data sharing, shared evidence, community information, and information given to people

**Inequalities** - addressing the underlying causes of inequality through a coordinated approach to addressing:

- Tackling worklessness and addressing underlying health issues
- Tackling poverty, financial inclusion and welfare reforms
- A coordinated approach to tackle fuel poverty
- Violence prevention
- Promoting good mental Health and emotional well-being
- Inclusive growth and maximising the benefits of economic development for all communities
- Healthy lifestyles
- Developing resilient communities

### Integration and collaboration

- Joint decision making: joint health and well-being board and streamlined partnerships
- Further develop approaches for joint commissioning of health and social care for adults and children as well as joint working with other commissioning organisations to address the wider health and well-being challenges.
- Develop new models of service delivery models that integrate health, social care, housing, VCS, police and fire service.

### Information and Data

- Develop joint understanding of the local challenges through better use of information and intelligence,
- Improved use of intelligence to drive planning and service improvements,
- Improved arrangements for data sharing and integrated data systems,
- Ensuring the local narrative, community information and qualitative information is also considered
- Joint up approaches for sharing information with residents

The Board will develop an annual work programme to focus on key issues that address the priority areas. The Board will also monitor and receive update reports on progress against

the work programme. The work programme will be reviewed annually as part of the planning and commissioning cycle.
